Teaching and Learning Methods (and contact hours)	<p>During scheduled teaching, students will receive guidance and formative feedback on how to achieve this. Lectures introduce students to novel ways of thinking about personal beliefs and traditional systems. Seminars are designed to provide a safe environment for students to explore their own opinions and those of others based on their different individual experiences. Discussion and debate are encouraged and these experiences provide students with additional formative feedback in preparation for their oral assessment.</p> <p>Scheduled learning includes lectures, seminars, tutorials, project supervision, demonstration, practical classes and workshops; fieldwork; external visits; work based learning; supervised time in studio/workshop.</p> <p>Independent learning includes hours engaged with essential reading, case study preparation, assignment preparation and completion etc. These sessions constitute an average time per level as indicated in the table below. Scheduled sessions may vary slightly depending on the module choices you make.</p> <p>Virtual Learning Environment (VLE) This specification is supported by a VLE where students will be able to find all necessary module information. Direct links to information sources will also be provided from within the VLE.</p>																																			
Unistats Information	<p>The Office for Students (OfS) require Unistats information to be produced at programme level for all undergraduate programmes of more than one year in length. These are comparable sets of standardised information about undergraduate courses allowing prospective students to compare and contrast between programmes they are interested in applying for.</p> <table><tr><td colspan="5">Expected learning hours for the module:</td></tr><tr><td></td><td></td><td></td><td></td><td></td></tr><tr><td colspan="4">Number of credits for this module</td><td>15</td></tr><tr><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Hours to be allocated</td><td>Scheduled learning and teaching study hours</td><td>Independent study hours</td><td>Placement study hours</td><td>Allocated Hours</td></tr><tr><td>150</td><td>36</td><td>114</td><td>0</td><td>150</td></tr><tr><td></td><td></td><td></td><td></td><td></td></tr></table> <p>The table below indicates as a percentage the total assessment of the module which constitutes a -</p> <p>Written Exam: Unseen written exam, open book written exam, In-class test Coursework: Written assignment or essay, report, dissertation, portfolio, project Practical Exam: Oral Assessment and/or presentation, practical skills assessment, practical exam</p> <p>Please note that this is the total of various types of assessment and will not necessarily reflect the component and module weightings in the Assessment section of this module description:</p>	Expected learning hours for the module:										Number of credits for this module				15						Hours to be allocated	Scheduled learning and teaching study hours	Independent study hours	Placement study hours	Allocated Hours	150	36	114	0	150

Reading Strategy	<p>Core material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE programme presence.</p> <p>Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature and wider professional sources.</p> <p>Access and skills</p> <p>Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.</p>																								
Indicative Reading List	<p>The following list is offered to provide the validators /accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification. However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms.</p> <p>Blackburn, S. Part 3: Assessment	
Assessment Strategy	<p>The assessment for this module enables students to articulate their opinions supported by evidence from extensive research and reading. They are guided not to present facts from the literature, but to evaluate these as part of their appraisal. The assessment also requires students to formulate realistic recommendations on what can be done to improve equine welfare.</p> <p>To ensure students have a plan to work against during the development of their oral assessment, students are encouraged to submit a short proposal mid-semester outlining the main points that will be addressed during their poster defence, with a short evaluation of each point supported by relevant evidence. Students can utilise formative feedback in the development of their poster/presentation. During the resit opportunity students will be required to utilise feedback from the sit (or generic feedback from the Module Leader which will be available on Moodle) to support their re-sit attempt.</p> <p>A student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.</p>
