

## **Programme Specification**

Part 1: Basic Data						
Awarding Institution	Hartpury University					
Teaching Institution	Hartpury					
Delivery Location	Hartpury					
Study abroad / Exchange / Credit recognition	None					
Department responsible for programme	Sport					
Programme Title	MSc Strength and Condit	ioning				
Professional Statutory or Regulatory Body Links	The Chartered Institute for the Management of Sport and Physical Activity (CIMSPA) (This applies to the MSc award only.)					
Highest Award Title	MSc Strength and Conditioning					
Default Award Title	None					
Interim Award Titles	Postgraduate Diploma in Strength and Conditioning Postgraduate Diploma in Sport Studies Postgraduate Certificate in Strength and Conditioning Postgraduate Certificate in Sport Studies					
Mode(s) of Study	Accelerated Full Time / Full Time / Part Time					
Codes	<b>UCAS:</b> C63112		UNIT-	e: MSTSASCX		
Relevant QAA Subject Benchmark Statements	Events, Hospitality, Leisu	re, Spor	t and T	ourism		
Last Major Approval Date	V1.0- 01 Sept 2017 V2.1- 02 May 2018 V3.1- 31 Aug 2018 V4.0 - 12 Mar 2019 V6.0 - 22 February 2021	Valid 1		V3.1- 01 Sept 2018 V4.0 - 01 Sept 2019 V6.0 - 01 Sept 2021		
Amendment Approval Date		Amen with e from		V4.0 - 01 Sept 2019 V6.0 - 01 Sept 2021		
Version	6.0			-		
Review Due By	1 September 2024					

## Part 2: Educational Aims of the Programme

This programme is designed with a practical orientation, towards the application and evolution of theory to practice in varied settings. Additionally, for students progressing to Master's level, the study of research methods is extended to the ability to be able to plan, conduct and disseminate their own research following the established principles of rigorous scientific study. Therefore, throughout the programme students will be exposed to advanced methods of analysis and challenging statistical approaches.

The educational aims of the programme are:

- 1. To allow students to develop a critical understanding of motor learning and motor control theories and how this applies to strength and conditioning practice,
- 2. To provide students with a critical awareness of how research evidence informs current strength and conditioning recommendations and practice across populations, with an emphasis on sports performance,
- 3. To provide students with specialist measurement and research skills to investigate issues in the field of strength and conditioning, and design and review appropriate training interventions,
- 4. To foster the development of independent learners with transferable intellectual and study skills that can make a significant and sustainable contribution within their chosen career path,
- 5. To develop an advanced and critical awareness of coaching science disciplines allowing for students to become effective strength and conditioning coaches in practice,
- 6. To encourage reflective and critical abilities as strength and conditioning professionals to question existing practice, inform future applications and enhance their personal development as a reflective practitioner.

# Programme requirements for the purposes of the Higher Education Achievement Record (HEAR)

MSc Strength and Conditioning graduates will have a deep understanding of the applied practices within strength and conditioning through rigorous study of areas such as motor control, assessment and evaluation, applied training techniques and coaching science. They will have specialist measurement and research skills enabling them to assess, design and review appropriate strength and conditioning training interventions. This will be based on a deep understanding of the transferability of training to motor skills exhibited in sports performance, the specific physiological responses and adaptations elicited through appropriately tailored programming of training and the testing measurements and subsequent training prescription. Graduates will be able to present findings from investigations to a professional level, both verbally and in written format. The MSc Strength and Conditioning degree programme has been endorsed by The Chartered Institute for the Management of Sport and Physical Activity (CIMSPA) which means graduates have demonstrated the industry standards outlined by the United Kingdom of Strength and Conditioning Association (UKSCA).

# Part 3: Programme Structure for: MSc Strength and Conditioning

This structure diagram demonstrates the student journey from Enrolment through to Graduation for a typical **full time student**, including:

- level and credit requirements
- · award requirements that are in addition to those described in the Hartpury Academic Regulations
- module diet, including compulsory, core and optional modules

Modules with an \* are included in the CIMSPA Graduate Strength and Conditioning professional standards mapping document.

ENTRY	Compulsory Modules	Optional Modules	Awards
	<sup>1</sup> Skill Acquisition for Strength and Conditioning (HSPVAY-15-7) *		PG Cert Sport Studies
	Contemporary Issues in Strength and Conditioning (HSPVB4-15-7) *  ¹Performance Profiling and Testing for Athletes (HSPVB3-15-7) *  Physiology of Strength and		PG Cert Strength and Conditioning This must include modules:  Applied Practice in Strength and Conditioning  Performance Profiling and Testing for Athletes
	Conditioning (HSPVC3-15-7) *  Postgraduate Dissertation (HANVL5-60-7) *		Skill Acquisition for Strength and Conditioning
	The Research Process (HANXKT-15-7) *		Contemporary Issues in Strength and Conditioning
	<sup>1</sup> Applied Practice in Strength and Conditioning (HSPV66-15-7) *		PG Dip Sport Studies  PG Dip Strength and Conditioning This must include modules:
	EITHER		Applied Practice in Strength and Conditioning
	Postgraduate Industry Placement Experience (HSPVD9-30-7) *		Performance Profiling and Testing for Athletes
	OR		Skill Acquisition for Strength and Conditioning
	Professional Development Portfolio (HSPXMV-15-7) * <b>AND</b> High Performing Environments (HSPXN3-15-7) *		Contemporary Issues in Strength and Conditioning  MSc Strength and Conditioning This must include all compulsory modules.
	<sup>1</sup> Note that these modules ran under different names during 2020/21 - see change log for details.		

#### Part time:

The part time student journey from Entry through to Graduation is individually negotiated with the student.

der attr	e award route provides opportunities for students to develop and monstrate knowledge and understanding, qualities, skills and other ributes in the following areas:	Skill Acquisition for Strength and Conditioning	Physiology for Strength and Conditioning	Performance Profiling and Testing for Athletes	Applied Practice in Strength and Conditioning	The Research Process	Professional Development Portfolio	Contemporary Issues in Strength and Conditioning	High Performing Environments	Postgraduate Industry Placement Experience	Postgraduate Dissertation

								•		-	
3.	Demonstrate a capability to fully participate in postgraduate level academic enquiry through the application of cognitive skills including critical thinking, analysis and synthesis (including the capability to identify assumptions, evaluate statements in terms of evidence, detect false logic or reasoning, identify implicit values, define terms adequately and generalise appropriately).	✓	<b>✓</b>	✓	✓	<b>✓</b>	✓	<b>✓</b>	✓	<b>√</b>	✓
4.	Evaluate, deconstruct and integrate differing anecdotal, traditional and contemporary coaching principles to develop and test theories, models, concepts, and hypotheses.	✓			<b>✓</b>	<b>√</b>	✓	1			<b>√</b>
5.	Decide upon and administer an appropriate research methodology (qualitative or quantitative), to facilitate the analyses of data.					✓					✓
6.	Devise, perform, analyse the findings, draw conclusions and undertake a systematic critical reflection on a programme of original research in order to formulate appropriate recommendations.										✓
(C)	Subject/Professional/Practical Skills					•		•			
1.	Utilise scientific principles, concepts and theories to inform strength and conditioning provision.	✓	✓		✓	1		<b>✓</b>			✓
2.	Where appropriate apply strength and conditioning research findings to industry-based problems.	✓		✓	✓		✓	✓		<b>✓</b>	✓
3.	Evaluate physical, biomechanical and physiological fitness test results, and use such data to both formalise training programmes and inform invested parties of results.		✓	✓	✓						
4.	Provide feedback aligned with theories of motor learning and skill acquisition.	✓			✓						
5.	Implement effective reflection on personal and learner experiences to promote best coaching practice.	✓			✓		✓	✓	✓	✓	
6.	Analyse coaching behaviours and modify styles were needed for the greatest effect.	✓					✓		✓		
7.	Critically evaluate current and topical strength and conditioning research practices and practical approaches.	✓	✓	✓	✓	<b>√</b>	1	✓			✓
(D)	Transferable skills and other attributes										
1.	Communicate effectively with a wide range of individuals using a variety of appropriate means, showing self-awareness and sensitivity to diversity in people and different situations.			✓	✓		1	✓	✓	✓	✓
2.	Exhibit interpersonal and teamwork skills, necessary for working in high performing environments.	✓	✓	✓	✓		✓	✓	✓	<b>✓</b>	
3.	Analytically evaluate academic, vocational and professional performance through the structured use of reflection.			✓	<b>√</b>		✓	<b>√</b>	•	<b>✓</b>	
4.	Utilise problem-solving skills in a variety of theoretical and practical situations.	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
5.	Manage change effectively and respond appropriately, and flexibly, to changing demands.	✓	✓	✓	✓	<b>√</b>	✓	<b>✓</b>	✓		✓
6.	Take responsibility for personal and professional learning and development and act autonomously in planning and implementing tasks.	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

## Part 5: Student Learning and Student Support

## Teaching and learning strategies to enable learning outcomes to be achieved and demonstrated

The field of strength and conditioning has emerged as a distinct and popular area of expertise in sport science. Predominantly emanating from within the disciplines of physiology and biomechanics, strength and conditioning professionals frequently require knowledge and understanding of interdisciplinary applied sport science and coaching. The modules aim to build upon fundamental principles by enhancing the students' knowledge base, technical competence, practical coaching skills and personal reflection-based knowledge from a multi- and inter-disciplinary approach.

Throughout this level of the programme, research methods form a compulsory element and act as an important building block for the dissertation at master's level. In addition, students are also exposed to the theories of motor learning, practical testing assessments and reflective coaching which helps to develop a well-rounded strength and conditioning coach. This knowledge is fundamental when critically appraising anecdotal, traditional and contemporary principles upon which current strength and conditioning practice is built on.

Specifically, postgraduate students will be assigned a personal tutor to provide additional guidance and support throughout the duration of their master's programme. Upon registration a student will have access to an induction programme incorporating literature searching skills and a library induction and exercises to develop level 7 study skills. Study skills support throughout the programme will also be available for students that are successfully accepted to the programme using the institutions established student support mechanisms. Support for students with varied learning requirements is available and students may apply for alternative forms of assessment and other methods of support as applicable to their individual circumstances. Support is also available for students to develop their career aspirations with events, group sessions and individual appointments with dedicated careers staff.

On the MSc Strength and Conditioning programme teaching is a mix of:

Scheduled learning – may vary slightly depending on the module choices made. These scheduled learning sessions will be interactive, collaborative and industry related, employing a variety of teaching and learning methods, which may include lectures, seminars, project supervision and practical classes. Throughout the programme, students will be required to approach their learning via an independent lens.

**Independent** learning - includes the hours engaged with essential reading and other learning materials, case study preparation, practical competency development, assignment preparation and completion etc.

**Virtual Learning Environment**: This specification is supported by a VLE where students will be able to find all necessary module information. Direct links to information sources will also be provided from within the VLE.

## **Description of any Distinctive Features**

The MSc Strength and Conditioning programme can provide a number of opportunities to work alongside experienced staff in delivering strength and conditioning provision, applying acquired knowledge in practice. This provides students with the necessary applied coaching provision to support content delivered throughout scheduled and independent learning in addition to aiding in the preparation for working in the professional field.

Students enrolled on the MSc Strength and Conditioning programme will also have the opportunity to undertake internships working within the local sports clubs, schools and academies. This will incorporate working closely with the institutions HE Sport staff and professional partners on research projects aligned to the efficacy of strength and conditioning practices for athletic performance and long-term physical development.

Due to the programme endorsement provided by CIMSPA students that successfully complete the MSc degree will be able to hold the title of "Graduate Strength and Conditioning Coach". This will enable students to demonstrate to employers, stakeholders and athletes/clients that they have achieved the minimum professional standards required to work within industry.

## Part 6: Assessment

Modules will be assessed according to the Academic Regulations published for the academic year on the website <a href="https://www.hartpury.ac.uk">www.hartpury.ac.uk</a>

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be: Postgraduate Dissertation.

## **Assessment Strategy**

Assessment strategy to enable the learning outcomes to be achieved and demonstrated:

A variety of assessment methods will be employed throughout the programme to develop the skills and attributes of the student in line with industry expectations and the aims of the programme. The learner's ability to demonstrate intellectual and personal/practical skills will be tested through written assignments, written reports, practical examinations, practical skills assessment, oral examinations, individual presentations and the creation of a personal development portfolio. Within the MSc Strength and Conditioning particular emphasis is placed on developing the ability of student's to professionally demonstrate practical mastery of techniques essential to assessing, devising, prescribing and evaluating strength and conditioning training interventions. The ability to communicate both with an athlete during an intervention and in a report post intervention is an essential skills for these graduates in a future career in this area.

A student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.

## **Assessment Map**

The programme encompasses a range of **assessment methods** and these are detailed in the following assessment map:

## **Assessment Map for MSc Strength and Conditioning**

		Type of Assessment									
		Unseen Written Exam	Open Book Written Exam	In-class Written Test	Practical Exam	Practical Skills Assessment	Oral assessment and/or presentation	Written Assignment	Report / Project	Dissertation	Portfolio
Compulsory Modules Level 7	Skill Acquisition for Strength and Conditioning Contemporary Issues in Strength and						A (50)	A (100) B (50)			
	Conditioning Postgraduate Dissertation						A (25)			A (75)	
	Performance Profiling and Testing for Athletes Physiology of Strength							A (400)	A (100)		
	and Conditioning Applied Practice in Strength and Conditioning The Research Process					A (75)	A	(100) B (70)	B (25)		
Core Modules	Professional Development Portfolio						(30)				A (100)
Level 7	High Performing Environments Postgraduate Industry Placement Experience						A (50)	B (50)			A (100)

<sup>\*</sup>Assessment should be shown in terms of either Written Exams, Practical exams, or Coursework as indicated by the colour coding above.

## **Part 7: Entry Requirements**

Applicants will have achieved entry criteria appropriate for the year of entry, which can be found through the Hartpury website (<a href="https://www.hartpury.ac.uk">www.hartpury.ac.uk</a>).

Applicants must provide evidence which demonstrates that they can benefit from study on this programme and are likely to achieve the required standard.

We also welcome applicants from a diverse range of backgrounds who do not have the entry requirements outlined above. Applicants will be considered on the basis of evidence of personal, professional and educational experience which indicates an applicant's ability to meet the demands of an undergraduate degree programme. Applicants with non-standard entry criteria may be reviewed on an individual basis. This may take the form of an individual interview with members of the programme team and possibly the completion of a set task such as a written assignment.

Where appropriate experience or learning has been gained prior to enrolment on the programme, Hartpury will consider applications for advanced entry, e.g. into year two or three of a programme. More details on how to apply for this can be found through the Hartpury website.

Applicants whose first language is not English must also gain a minimum IELTS score of 6.5 prior to entry onto the programme.

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of individual modules can be found in module specifications, available on the Institution's website.

#### **Programme Approval Log**

Programme Title:	MSc Strength and Conditioning
Programme Code:	C63112/MSTSASCX
Initial Approval Date:	01 September 2017
Approved by:	Curriculum Approval Committee
Approved until:	1 September 2023
Original version number:	V1.0

#### Changes:

07/10/2021 - non-material alteration approved by CSP Chair's action: note added to programme map to indicate modules that were subject to name changes.

#### **Current version number: 4.0**

#### **Outline Change Details:**

#### Part 1 - Page 1: Professional Statutory or Regulatory Body Links

Change 1: CIMSPA information added to the basic information section

#### Part 2 - Page 2: HEAR

Change 1: CIMSPA information added to the programme aims section.

## Part 3 - Page 3: Skill Acquisition for Strength and Conditioning (HSPVAY-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module name changes from "Applied Motor Control and Motor Learning for Strength and Conditioning"

#### Part 3 - Page 3: Contemporary Issues in Strength and Conditioning (HSPVB4-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

#### Part 3 - Page 3: High Performing Environments (HSPXN3-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module has become optional on the programme structure for MSc degree.

#### Part 3 - Page 3: Performance Profiling and Testing for Athletes (HSPVB3-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module name changed from "Performance Assessments and Evaluation for Strength and Conditioning".

#### Part 3 - Page 3: Physiology of Strength and Conditioning (HSPVC3-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

#### Part 3 - Page 3: Postgraduate Dissertation (HANVL5-60-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

#### Part 3 - Page 3: Professional Development Portfolio (HSPXMV-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module has become optional on the programme structure for MSc degree.

#### Part 3 - Page 3: The Research Process (HANXKT-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

#### Part 3 - Page 3: Applied Practice in Strength and Conditioning (HSPV66-15-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module name change from "Training Prescription and Programming"

## Part 3 - Page 3: Postgraduate Industry Placement Experience (HSPVD9-30-7)\*

Change 1: Module mapped to CIMSPA Graduate Strength & Conditioning Coach Professional Standards on MSc degree.

Change 2: Module added to programme structure from Applied Performance Analysis degree.

#### Part 3 - page 3: Programme structure

Optional modules moved to core.

#### Part 4 - Page 4: Applied Practice in Strength and Conditioning (HSPV66-15-7)\*

Change 1: Module name change from "Training Prescription and Programming"

#### Part 4 - Page 4: Performance Profiling and Testing for Athletes (HSPVB3-15-7)\*

Change 1: Module name changed from "Performance Assessments and Evaluation for Strength and Conditioning".

#### Part 4 - Page 4: Skill Acquisition for Strength and Conditioning (HSPVAY-15-7)\*

Change 1: Module name changes from "Applied Motor Control and Motor Learning for Strength and Conditioning"

#### Part 4 - Page 4: Postgraduate Industry Placement Experience (HSPVD9-30-7)\*

Change 1: Module added along with respective learning outcomes to the section.

#### Part 5 - Page 7: Description of any Distinctive Features

Change 1: CIMSPA information added to the student learning and student support section.

#### Part 5 - Page 8: Assessment map

Optional module Professional Development Portfolio corrected to A (100) coursework portfolio

#### Part 6 - Page 8: Applied Practice in Strength and Conditioning (HSPV66-15-7)\*

Change 1: Module name change from "Training Prescription and Programming" on assessment map.

#### Part 6 - Page 8: Performance Profiling and Testing for Athletes (HSPVB3-15-7)\*

Change 1: Module name changed from "Performance Assessments and Evaluation for Strength and Conditioning" on assessment map.

#### Part 6 - Page 8: Skill Acquisition for Strength and Conditioning (HSPVAY-15-7)\*

Change 1: Module name changes from "Applied Motor Control and Motor Learning for Strength and Conditioning" on assessment map.

#### Part 6 - Page 8: Postgraduate Industry Placement Experience (HSPVD9-30-7)\*

Change 1: Module added along with its assessment.

#### Part 6 - Page 8: Postgraduate Dissertation (HANVL5-60-7)\*

weighting changed: Oral Assessment/Presentation from A20 to A25, Dissertation from A80 to A75.

### Material Alteration: Yes and is accompanied by the relevant course information sheets.

#### Rationale:

The changes of module names are twofold. One the revised module names more accurately reflects what the content the module includes as well as the assessment strategies included. Two, the terminology is more specific to strength and conditioning which reflects the CIMSPA Graduate Strength and Conditioning professional standards. Both of these factors will provide greater to clarity to current students undertaking the modules as well perspective new students that view our content online.

The addition of the placement module provides students with a further avenue to develop their applied experiences during their degree. Due to the diversity of theoretical and practical knowledge of the students on the degree the addition of the module will provide those students who are either currently working in industry or have limited experience in industry to gain course credit whilst also furthering their career prospects.

## Change requested by: Ben Drury

I can confirm that student representatives have been consulted about this change

I can confirm that colleagues impacted by this change have been consulted

I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report

Signature: Date: 12/01/2021

#### Name of Head of Department: Sarah Lee

I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department

Signature: Yarah Zee	<b>Date</b> : 14.01.21
Approval Committee and Date:	CVC 2021 02 22
Change approved with effect from:	01 September 2021
Resulting new version number:	6.0 (2021 intake onwards)

#### **Current version number: 3.1**

**Outline Change Details**: Part 1: Title changed to MSc Strength and Conditioning from MSc Applied Strength and Conditioning.

- Part 2: Adaptation of HEAR information.
- Part 3: 'Awards' column titles of PG Cert Applied Strength and Conditioning and PG Dip Applied Strength and Conditioning changed to 'Strength and Conditioning' respectively.
- Part 3: Modules that contribute to PG Cert Strength and Conditioning have been altered to include the new modules.
- Part 4: Ticked boxes where necessary.
- Part 4: Included an additional LO C7 'Critically evaluate current and topical strength and conditioning research practices and practical approaches'.
- Part 5: Added in additional information to 'Scheduled Learning' and 'Independent Learning' strategies to reflect industry and independent approach.
- Part 6: updated to reflect changes to part 3
- Part 7: New text included in line with new template
- Part 8: Deleted in line with new template

## Material Alteration: Yes and is accompanied by the relevant course information sheets. Rationale: changes made in line with PCR Action Plan Change requested by: Ben Drury I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme **Enhancement Report** Signature: **Date**: 23/01/2019 Name of Head of Department: Sarah Lee I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department Signature: S Lee **Date**: 23/01/2019 **Approval Committee and Date:** CVC 2019 03 12 1 September 2019 Change approved with effect from: Resulting new version number: 4.0 (2019 intake)

## Version 3.1

CI SION C.1							
Rationale: After the successful application for University Title, amendments were required to all specifications.							
Material Alteration: Yes and Course Information Sheet amended appropriately: Not required							
Outline Change Details: 1. Part 1: Basic Data requires the Awarding Body to be amended from Hartpury College to Hartpury University.							
Change requested by: Academic Registrar
