# Applied Performance Analysis in Sport

---

Typical offer: **2.2 honours degree or equivalent**

Duration: **1-3 years; full-time and part-time options**

Awarding body: **Hartpury University**

Course code: **MSTSAP**

**Apply for this course here: <https://www.hartpury.ac.uk/university/courses/postgraduate/msc-applied-performance-analysis-in-sport-msc-postgraduate-diploma-and-postgraduate-certificate/msc-applied-performance-analysis-in-sport-2021/>**

## OVERVIEW

### Course overview

**This exciting new postgraduate degree has been designed to meet modern industry demands. It stands apart from other courses, focusing on the application of theory to practice in real-world settings across a range of sports and levels.**

The role of a successful sports analyst has changed in recent years, as new technologies enable the fine-tuning of athletic performance like never before.

Successful analysts are still required to produce and evaluate complex datasets. However, they now play a more integral role in athletic success, connecting player and coach using insight and consultancy to refine athletic performance in real time.

This course provides the ideal opportunity for you to reach the top of your game as an analyst.

Alongside a guaranteed work placement with one of our performance sports academies and an external work placement, you'll benefit from expert lecturers and world-class facilities including a dedicated performance analysis suite and the latest technologies.

With both full and part-time learning options, you could study alongside existing employment or other commitments. As a graduate, you'll be ready to progress directly into the field of performance analysis, whether with green site sports venues or high-level performance sports settings.

Studying a postgraduate certificate or diploma is ideal for those who want to complete a specific part of a master's degree, without the academic research.

## WHAT YOU'LL STUDY

### What you'll study

#### MSc

The master's degree focuses on the application of performance analysis principles into practice. You will learn how to set up equipment and performance analysis coding templates and apply this knowledge in your work placements.

You'll learn how to design and implement performance sports metrics, using global software Hudl SportsCode and Nacsport. You'll develop skills across different software and systems, and get to grips with modern equipment including IP cameras, live broadcasting technology and drones.

You'll undertake two work placements while studying to enable you to test your ideas and develop real industry skills. A 60-hour placement will be with one of our performance Sports Academy teams – a safe and supported environment for you to implement ideas and test skills. You'll critique contemporary approaches to analysis and the research that underpins it.

Alongside this, you'll complete a 200-hour placement; this could be with your current employer or a new employer.

Our students benefit from our outstanding industry connections. Alongside our own Hartpury RFC Championship rugby team, we have strong relationships with England Rugby, Gloucester Rugby, Cheltenham Town Football Club, Exeter City Football Club, Bristol Rovers Football Club, GB Rowing, Pentathlon GB and Olympic champion equestrian coaches and athletes.

Your dissertation enables you to research an area of your own interest within performance analysis. In addition to the core modules, you will have the opportunity to study modules within coaching and strength and conditioning. These modules are intended to widen your appreciation for the role of the analyst and other professionals in the wider team.

#### Postgraduate Certificate and Postgraduate Diploma

These qualifications form part of and are at the same level as the full master's degree. They provide the ideal opportunity for you to develop your professional expertise via shorter qualifications, whilst allowing flexibility to progress each qualification through to the next level, including the full master's degree.

#### Postgraduate Certificate

Your postgraduate certificate includes the work placement within the Hartpury Sports Academy. Please view the specific module breakdown for further details.

#### Postgraduate Diploma

Your postgraduate diploma includes all specialist modules within performance analysis, including Hartpury and external placement opportunities. Please view the specific module breakdown for further details.

## Modules

Below you'll find the compulsory modules for this course. You'll also be able to choose from a range of optional modules to suit your interests and career goals.

Optional modules change each year in line with student, industry and research demands.

### COMPULSORY MODULES

#### **Fundamentals of Performance Analysis (all levels)**

This module addresses the technical requirements of analysing performance, including the set-up and readiness of equipment, through to identifying factors being analysed alongside obtaining data. You'll complete 60 hours of performance analysis contact hours within the Hartpury Sports Academy to support you to apply your skills.

#### **Contemporary Issues in Performance Analysis (all levels)**

You'll be challenged and supported to analyse performance through various systematic observation techniques and to evaluate contemporary research within the field.

#### **Postgraduate Industry Placement Experience (PGDip and MSc)**

This module will bridge the gap between your academic preparation and the real-world environment. You'll be required to source and complete 200 hours of industry-based placement in a pre-approved environment.

#### **The Research Process (MSc)**

This includes discussion of research methodologies and applications, as well as strengths, weaknesses and limitations of different methods.

#### **Postgraduate Dissertation (MSc)**

You'll develop and undertake a research project of your choosing.

### OPTIONAL MODULES

#### **Optional modules**

Optional modules change each year in line with student, industry and research demands.

Recent subjects have included areas of strength and conditioning, as well as coaching, that students are interested in and may be considering as part of future employment.

---

Please visit our document library for more module information.

## HOW YOU'LL STUDY

### How you'll study

We're committed to supporting you to fulfil your unique potential while you're here so that you can achieve your personal and professional goals.

### Your support network

You'll benefit from a strong support network from day one. This will range from your lecturers, supervisors and personal tutor to our specialist academic (Achievement and Success Centre), employability (Innovation, Careers and Enterprise) and wellbeing teams.

### Your learning experiences

You'll experience a range of teaching methods to strengthen your understanding of topics, including lectures, workshops and practical sessions.

### Further details

#### + Duration

---

##### **One year, full-time**

You can study each of these qualifications full-time and subsequently complete each within one year.

##### **Two-three years, part-time**

Alternatively, we offer flexible part-time options to help students to manage their studies alongside other commitments. These options can be tailored to suit your own needs, enabling you to complete your qualification in two or three years. Please enquire for further details.

#### + Module credits

---

Upon successful completion of your modules you'll gain academic credit that accumulates towards your award. The marks you gain may contribute towards your final master's degree differential award (pass, merit or distinction).

#### - Teaching modes

---

The modules contain a mixture of scheduled learning – lectures, online learning, workshops and practical sessions – alongside independent learning. Students are expected to dedicate at least two to three hours of independent study per contact hour. Your course includes work placement learning as part of two modules.

The course is taught in English.

---

	Contact learning	Placement learning	Independent learning
MSc degree	12%	11%	77%
Postgraduate Diploma	17%	17%	66%
Postgraduate Certificate	21%	0%	79%

## + Teaching contact time

Teaching contact time and method will vary depending on the module that you are studying.

## - Assessment and feedback

You'll be assessed through a mixture of practical exams and written assignments. Many of the modules will be marked based on a mixture of assessment types, whilst others will be based solely on one type of assessment. Feedback will be given in written form, with the option to discuss all feedback with academic staff.

	Written exam	Practical exam	Coursework
MSc degree	0%	32%	68%
Postgraduate Diploma	0%	41%	59%
Postgraduate Certificate	0%	62%	38%

## + Timetables

This course is made up of three semesters. Semesters normally consisting of 12 weeks of scheduled teaching and then assessment weeks, with an overview below:

- Scheduled teaching generally takes place across block weekends (Friday – Sunday)
- Delivery on the teaching weekends is normally scheduled between 9.00am – 5.00pm
- Part-time students typically study for fewer block weekends across an academic year
- Attendance dates and timetables are available before enrolment to support the arrangement of annual leave where required

# EMPLOYABILITY

## Your career

This applied degree is focused on developing your skills in the real-world, whether with our performance sports teams and athletes on campus or an external business as part of your work placement. You'll also hear from professionals in lectures to broaden your knowledge and commercial networks.

## Work placements and experience

You'll undertake compulsory work placement experience with one of our performance sports teams and an external provider. We'll support you to secure a placement with a UK-based or international employer. We have strong relationships with Gloucester Rugby, England Rugby, Cheltenham Town Football Club, Exeter City Football Club, Bristol Rovers Football Club, GB Rowing, Pentathlon GB and Olympic champion equestrian coaches and athletes.

## Guest lecturers

Guest lecturers may be used to enhance our delivery and provide you with additional insight into professional practice as an analyst.

## Graduate destinations

As a graduate, you'll be ready to progress directly into the field of performance analysis, whether with green site sports venues or high-level performance sports settings.

- Performance Sports Analyst

# FACILITIES

## World-class facilities

You'll have access to a diverse range of facilities while you're here, many of which are newly built and world-class. Alongside lectures halls and workshop spaces, these include:

## Performance analysis suite

The analysis suite includes access to laptops with industry-leading Hudl Sportscode and Nacsport software.

## Sports hall and outdoor pitches

The sports facilities include IP cameras offering live and delayed footage of training and matches, providing analysts with access to high-quality footage.

## Sports laboratories

Our laboratories are modern and well equipped, providing the ideal spaces for scientific activities and research.

## Study spaces

Our University Learning Centre has journals, ebooks, computers and breakout study spaces, as well as our Study Zone – an informal space with sports equipment, study booths and chill-out spaces to support both studying and relaxation. Postgraduate students also have a specially designated study area with 24-hour access.

# ENTRY REQUIREMENTS

## Entry requirements

- Applicants should have at least a lower second class (2:2) honours degree in a relevant subject.
- Students with non-relevant qualifications but with sufficient work experience or professional experience will be considered on an individual basis.

Please contact us for further information:

# FEES AND FUNDING

## Tuition fees and financial support

Please visit our student finance page for information on tuition fees and student loans, as well as non-repayable grants, bursaries and scholarships, eligible to different groups, to support with study costs.

[Explore student finance](#) ▶

Below you'll find extra costs associated with studying this course, as well as costs associated with living and extra-curricular activities that might be of interest.

### Software

For the duration of your course, you'll benefit from complementary access to HUDL Sportscodex and Nacsport software through our institutional licences – these are accessible on Hartpury desktop PCs

only.

Software access is not available off campus. However, you'll be able to purchase your own Nacsport licence at a student-discounted fee of £50 each year or gain access through an employer or placement provider that is using the software. Please enquire for the latest HUDL Sportscode licence costs prior to enrolment.

## **Clothing and footwear (circa £100)**

### *Fundamentals of Performance Analysis module*

We strongly recommend the purchase of a Hartpury polo and tracksuit bottoms when representing Hartpury University as part of our Sports Academy.

Costs of this for the 2019/20 year are: £52.50 (polo shirt £22.50 and tracksuit bottoms £30.00). If you're required to travel as part of this course, related costs will be covered by the Hartpury Sports Academy.

### *Outdoor clothing*

The outdoor nature of this discipline may also require you to wear all-weather clothing and appropriate footwear whilst engaging in practical aspects. The purchase of this clothing is your own responsibility.

### *Hartpury University branded clothing*

Hartpury University branded clothing is available through our online shop, for those who wish to purchase it. However, this is not essential.

**Visit Hartpury shop** ▶

## **Travel**

### *Industry Placement Experience module*

You're responsible for travel costs for your professional work placement.

## **Performance Sports Academy membership**

Find out costs and details for joining one of our performance Sports Academy teams.

## **Hartpury gym**

Find out about costs and details for joining the Hartpury gym.

## **Accommodation and living costs**

Please visit our student accommodation page for details.

### 3rd in the UK

We're third in the UK for postgraduate student satisfaction (part-time, PTES 2019)

### 100%

100% of students are satisfied with the quality of their experience (part-time, PTES 2019)

### Outstanding

Courses are shaped by industry skills demands, leading to outstanding postgraduate careers

## APPLY NOW

You can apply for the MSc, Postgraduate Diploma or Postgraduate Certificate in Applied Performance Analysis in Sport via our website.

## FURTHER COURSE DETAILS
