|                            | <i>Further reading</i><br>Students are expected to identify all other reading relevant to their chosen topic for<br>themselves. They will be required to read widely using the library catalogue, a variety<br>of bibliographic and full text databases, and Internet resources. Many resources can<br>be accessed remotely. The purpose of this further reading is to ensure students are<br>familiar with current research, classic works and material specific to their interests from<br>the academic literature and wider professional sources. |
|----------------------------|--|
|                            | <b>Access and skills</b><br>Formal opportunities for students to develop their library and information skills are<br>provided within the induction period and student skills sessions. Additional support is<br>available through online resources. This includes interactive tutorials on finding books<br>and journals, evaluation information and referencing. Sign up workshops are also<br>offered.   |
| Indicative<br>Reading List | The following list is offered to provide the validators / accrediting bodies with an indication of the type and level of information students may be expected to consult. As such, its currency may wane during the life span of the module specification.<br>However, as indicated above, CURRENT advice on readings will be available via other more frequently updated mechanisms.  |
|                            | Alcock, J. (current edition) <i>Animal behaviour: an evolutionary approach.</i> Oxford: Oxford University Press.   |
|                            | Appleby, M. C., Hughes, B. O., Mench, J. A. and Olsson, A. (eds.) (current edition)<br><i>Animal welfare.</i> Wallingford: CAB International.  |
|                            | Barnard, C. (current edition) <i>Animal behaviour: mechanisms, development, function, evolution.</i> London: Pearson.  |
|                            | Broom, D.M. and Fraser, A.F. (eds.) (current edition) <i>Domestic animal behaviour and welfare</i> . Wallingford: CAB International.   |
|                            | Manning, A. & Stamp-Dawkins, M. (current edition) <i>An introduction to animal behaviour.</i> Cambridge: Cambridge University Press.   |
|                            | Webster, J. (current edition) <i>Management and welfare of farm animals: the UFAW farm handbook.</i> Oxford: Blackwell.  |

|                     | Part 3: Assessment  |
|---------------------|---|
| Assessment Strategy | This module will be assessed according to the approved Hartpury Academic Regulations including any specific regulations detailed within the student's programme specification.  |
|                     | The examination has been chosen to allow the knowledge and intellectual skills gained throughout the first part of the module to be assessed in a controlled examination setting. A variety of question types will be included within the exam to allow for demonstration of breadth of knowledge whilst also allowing for more in-depth discussion.  |
|                     | The written assignment has been chosen to facilitate in depth utilisation of the full breadth of information covered throughout the second part of the module, as well as via additional study. This will include information on abnormal behaviour and legislation in addition to the problems and solutions in animal housing. This application of taught material to a particular scenario is crucial to development of the animal welfare graduate. |
|                     | Formative feedback can be gained from this module in the module delivery,<br>on Moodle, in tutorials and in revision sessions. Formative feedback will be<br>given via quizzes and directed study tasks in order to assess understanding<br>of lecture content and knowledge retention. Summative feedback can be<br>gained upon assignment and exam scripts and in tutorials.  |
|                     | A student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.   |

|  |  |  |

27/02/2020 – BSc (Hons) Applied Animal Science with Therapy added to contributes towards as previously removed in error.

Current version number: 1.3

Outline Change Details:

New programme added to 'Contributes towards' BSc (Hons) Animal Training and Performance

#### Material Alteration: No

**Rationale:** The development of the new BSc (Hons) Animal Training and Performance programme has led to the contributes towards being updated and reviewed to ensure they are accurate.

# Module description for Course Information Sheets: Introduces students to the problems and insights of animal behaviour and welfare, including the study of ethical issues and legislation Change requested by: Lucy Dumbell N/A I can confirm that all programme managers have been consulted and support this change N/A I can confirm that student representatives have been consulted about this change N/A I have retained evidence of this consultation which has been placed in the Module File Lucy Dombell Signature: Date: 18/6/2019 Name of Head of Department: Jane Williams I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department Signature: Date:25/06/2019 Jane Williams CVC 2019 07 09 Approval Committee and Date: Change approved with effect from: 1 September 2020 1.4 Resulting new version number: Current version number: v.1.2

Outline Change Details: Adopting new naming system for programmes

Material Alteration: No

Rationale: To reflect the Hartpury Academic Regulations

Change requested by: Academic Registrar

Signature: Lucy Doubell

Date: 01 August 2018

| Approval Committee and Date:      | Curriculum Validation Committee 2018 08 31 |
