<b>Part 3: Learning, Teaching and Assessment</b>	
Description of Learning and Teaching	<p>Introductory lectures are supported by seminars, case studies, visits and practical workshops. In addition, this module will be supported by interactive forums and learning tools.</p> <p><b>Scheduled Learning</b> May include lectures, seminars, tutorials, demonstration, practical classes and workshops; external visits; supervised time in studio/workshop, and self-directed study.</p> <p><b>Independent Learning</b> Includes the hours engaged with essential reading, assignment preparation and completion.</p> <p><b>Virtual Learning Environment (VLE), or equivalent</b> This module is supported by a VLE where students will be able to find all necessary module information. Direct links to information sources will also be provided from within the VLE.</p>
Resource Strategy	<p><b>Essential reading</b> Essential material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE presence. No requirement for the purchase of set text(s) will be made unless explicitly stated and students will have full access to library services, online applications, and inter-library loans.</p> <p><b>Further reading</b> Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature and wider professional sources.</p> <p><b>Access and skills</b> Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.</p>
Assessment Strategy	<p>This module will be assessed according to the approved Hartpury Academic Regulations including any specific regulations detailed within the student's programme specification.</p> <p>Aim: Students will be required to conduct a performance analysis, utilising analytical techniques covered during the delivery of the module. Findings of the analysis will be communicated through a presentation (component A). The practical considerations and issues related to conducting performance analysis will be discussed in a report (component B) including reference to relevant academic material to support the report.</p> <p>Opportunities for formative assessment exist for the assessment strategy used. Students will be given opportunities to develop their analysis skills, with access to appropriate resources during scheduled learning time arranged by the module leader. Subsequent opportunities will be provided to gain verbal feedback on performance and development prior to summative assessments.</p> <p>A student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account</p>

	learning and assessment needs. For further information regarding this please refer to the VLE.
