Apply for this course here: <https://www.hartpury.ac.uk/university/courses/undergraduate/bsc-hons-sports-coaching/bsc-hons-sports-coaching-2022/>

OVERVIEW

Course overview

Master your trade as a sports coach. Put practical learning first, developing your own coaching style through regular opportunities with school children, and young athletes, as well as performance sports men and women on campus.

We're a partner of CIMSPA (Chartered Institute for the Management of Sport and Physical Activity). That means, everything you'll learn is taught in line with nationally recognised coaching standards. Graduate industry-ready with the skills you need to be a successful coach.

Throughout your degree, you'll be encouraged to gain real-world experience. Build a diverse portfolio that you can use to evidence your coaching expertise, experience and philosophy to employers when you graduate.

We've got strong links across the sports industry, including with the Football Association and the Rugby Football Union, giving you access to a wide range of coaching opportunities.

With 10 sports academies on site, you won't be short of opportunities to put what you're learning into practice. You could also find yourself gaining experience with local sports clubs and physical activity organisations.

We'll support you to discover and progress your own coaching philosophy and style. A diverse range of modules will introduce you to differing coaching theories, concepts and practices, aimed at giving you a personal skillset to become an accomplished coach.

Accreditation

As a partner of CIMSPA (Chartered Institute for the Management of Sport and Physical Activity), our curriculum is underpinned by professional coaching standards.

WHAT YOU'LL STUDY

What you'll study

This course covers a broad range of fundamental sports topics through core modules, from teaching and coaching, to sports science, and psychology. In addition to these core topics, you'll have a wide range of optional modules to choose from, allowing you to specialise to suit your interests and career goals.

Level four (year one)

Your first year will focus on introducing you to a broad range of topics, providing you with the skills and knowledge you'll need to begin developing your own coaching identity. Alongside your core coaching module, you'll study physiology, psychology, and sociology topics, as well as developing your academic and professional skills.

COMPULSORY MODULES

Coaching and Teaching Portfolio (Theory)

Apply coaching theory to evaluate your own abilities, illustrating your personal development.

The Sport and Exercise Professional

Learn academic and research skills through work with other sports science disciplines.

Introduction to Sport and Exercise Psychology

Understand athlete behaviour through key theories in sport exercise psychology.

Introduction to the Sport Industry

Investigate how participation is influenced by the structure, leadership and organisation of sport.

Introduction to Sport Exercise Physiology

This module covers the biological systems used during exercise.

Comparative Sports Study

Study how historical and political influences have shaped practices in a chosen sport.

OPTIONAL MODULES

None

There are no optional modules during this year. Your learning is focused on compulsory modules to ensure you have a thorough understanding of key topics to prepare you for module choices in your subsequent years.

Level five (year two)

Alongside your core coaching and academic skills modules, in your second year, you'll start to choose your own path with a choice of optional modules. You could focus on sports business management, sports science, health topics, inclusion, and youth development.

COMPULSORY-MODULES

Coaching and Teaching Portfolio (Pedagogy)

This module focuses on developing learning strategies and evaluating your ability to educate others.

Coaching Children

Use study methods and theories of practice to identify their appropriateness for coaching children.

The Sport and Exercise Scientist

Understand how multidisciplinary teams work together in sport and exercise. An introduction to research methods and analysis required for future projects.

OPTIONAL MODULES

Applied Performance Analysis

Students actively collect, analyse and feedback performance analysis data.

Health Related Exercise

Focus on the exercise techniques designed to improve health.

New Venture Creation

This module allows students to the explore the principles and practices faced by entrepreneurs whilst working through the process of developing a new commercial venture. The assessment offers students the chance to engage with their own new business idea and present to both business professionals and academic staff in a 'dragon's den' style pitch.

Sport Psychology

Learn and apply psychological skills to improve athlete performance.

The Inclusive Practitioner

Students will develop an understanding of inclusive practice within sport, physical activity, and physical education.

Youth Physical Development

This module provides students with the necessary theoretical knowledge and practical application to provide strength and conditioning provision to the youth population for both sporting and health purposes.

Level six (year three)

Your final year allows you to concentrate the topics that interest you most and will support you best in your future career. One module is dissertation, a substantial research project that enables you to experience being responsible for planning, implementing and reporting on a specialist topic. In addition, you'll be exposed to contemporary challenges in the subject area, as well as gaining an insight into where current research and coaching practice is focusing.

COMPULSORY MODULES

Sport Research and Knowledge Exchange Project

Independent research and analysis in a related area of your choice.

Coaching and Teaching Portfolio (Reflection)

Critically reflect on your coaching abilities and how you've developed throughout the programme.

High Performing Teams

Evaluate the leadership and management of sport science support within the performance environment.

OPTIONAL MODULES

Optional modules

Optional modules change each year in line with student, industry and research demands.

Recent subjects have included performance, inclusivity, and contemporary issues in sport. You can attend introductory sessions for optional modules before deciding which ones to study.

Please visit our document library for more module information.

HOW YOU'LL STUDY

How you'll study

We're committed to supporting you to fulfil your unique potential, which is why you'll receive a minimum of 15 hours of scheduled teaching time per week in your first year - this is 25% above the UK average.

Your support network

You'll benefit from a strong support network from day one to be the best you can be. This will range from your personal tutor and specialist academic support team (our Achievement and Success Centre) to dedicated wellbeing and employability (Innovation, Careers and Enterprise) centres.

Your learning experiences

You'll experience a range of teaching methods to strengthen your digestion of topics, including lectures, workshops and practical sessions, as well as supported work placement learning as part of many courses.

Your career

Each year of your course will be made up of two semesters, within which you'll study compulsory and optional modules on different industry-focused topics, enabling you to develop your own

unique portfolio of knowledge, skills and experience, ready for your career. The course is taught in English.

Further details

+ Academic support

You'll have your own personal tutor while you're here who will support you to succeed in your studies. You'll also have access to our academic and wellbeing support teams who run regular workshops and one-to-one sessions on campus and online.

Alongside this, we have a comprehensive bank of online study skills resources to help you make the most of your qualification.

+ Module credits

On successful completion of your modules you'll gain academic credit that accumulates towards your award. The marks you gain in your second and third years may contribute towards your final degree classification.

+ Teaching Modes

The modules contain a mixture of scheduled learning – lectures, workshops and practical sessions – alongside independent learning. Students are expected to dedicate at least two to three hours of independent study per contact hour. Your course may also include work placement learning as part of some modules.

Year	Contact learning	Independent learning	Placement learning
Level four (year one)	30%	70%	0%
Level five (year two)	24%	76%	0%
Level six (year three)	18%	82%	0%

+ Teaching contact time

You'll receive a minimum of 15 hours scheduled contact time per week in your first year. In subsequent years, scheduled contact will vary depending on the modules you select but is typically around 12 hours per week.

+ Assessment and feedback

You will be assessed through a mixture of written exams, practical exams and written assignments. Many of the modules will be marked based on a mixture of assessment types, whilst others will be based solely on one type of assessment. Feedback will be given on-line (electronic and oral), and in some cases face-to-face.

Year	Written exam	Practical exam	Coursework
Level four (year one)	19%	50%	31%
Level five (year two)	0%	60%	40%
Level six (year three)	13%	34%	53%

+ Timetables

Each year of this course is taught over two semesters, normally consisting of 12 weeks of scheduled teaching and then assessment weeks, with an overview below:

- Scheduled teaching takes place between 8:30 to 20:30 Monday to Friday
- Wednesday afternoons are normally reserved for sports and cultural activities
- Part-time students may need to attend learning activities five days each week, depending on modules selected
- Timetables are available during enrolment week

EMPLOYABILITY

Your career

Our course is strongly linked with the local sporting community, providing you with a broad range of opportunities to develop their coaching skills, gain valuable experiences, and developing connections needed for your graduate career.

Work experience

Our performance sports teams offer opportunities for students to gain industry experience ready for their careers. You could get involved with performance analysis, and coaching, as well as management roles. There are also opportunities for you to work

with some of our partner sports clubs, schools and organisations. Many students go on to graduate roles with these employers.

Graduate destinations

Our sports coaching graduates work in a range of sport, exercise, and health and wellbeing areas in the performance, school and community sports sectors. Studying sports coaching also develops the skills needed for other graduate careers. Recent graduate destinations have included:

- Football Coach, Paris Saint Germain
- Rugby coach, Play Rugby USA
- Rowing coach, Canterbury Christchurch College
- Head of Sport, private school
- Sport Development lead, Young Gloucestershire
- Performance Analyst, Gloucester Rugby
- Lecturer, Hartpury College

FACILITIES

World-class facilities

You'll have access to a diverse range of facilities while you're here, many of which are newly built and world-class. Alongside lecture halls and workshop spaces, these include:

Sports facilities

Our new sports hall and 3G football pitch are equipped with state-of-the-art video analysis cameras for live capture of coaching sessions and gameplay. Our £8.8million Sports Academy includes fully equipped Human Performance and Biomechanics Laboratories, as well as an altitude chamber. You'll also have access to grass pitches, and a golf driving range. We also have indoor and outdoor equine arenas, and a cross country track on campus.

Laboratories

Our human performance laboratories, biomechanics laboratory, and rehabilitation suite all boast state-of-the-art sports and exercise technology. Students will be encouraged to get hands on using some of the same equipment that is used by professional sports clubs, including Gloucester Rugby, as well as teams in the Premiership and NFL.

Study spaces

Our University Learning Centre has books, journals, ebooks, computers and breakout study spaces. In addition, we have a Study Lounge – an informal space with sports equipment, study booths and chill-out spaces to support both studying and relaxation.

ENTRY REQUIREMENTS

Entry requirements

- **UCAS tariff points** | Typical offer is 112 UCAS tariff points or equivalent including a Biological Science, Sports Studies or PE subject.
