## **Part 2: Programme Overview**

Graduates of BA (Hons) Equine Business Management will build on prior knowledge, and develop knowledge and understanding of key sustainable business principles within a range of pure and applied modules. They will have explored and analysed current issues within the equine business industry and applied equine science modules in relation to welfare and management requirements of the horse both now and in the future. Graduates will have an understanding of the equine industry and wider business management approaches and theories. Graduates have been exposed to live industry projects and expertise from the equine and allied industries in order to develop their own commercial ability to present and influence others to promote a sustainable and inclusive business environment whilst promoting positive wellbeing of themselves and others around them.

#### Part 5: Learning, Teaching and Assessment

Learning, Teaching and Assessment Journey:

The BA (Hons) Equine Business Management (level 6 entry) programme combines academic knowledge and understanding which will reinforce and support the development of practical skills to equip the student with the knowledge base and skills relevant to this very broad area of applied business management. The programme prepares graduates for the future needs of the equine industry in the UK and abroad by utilising assessments that simulate real-life business challenges. Graduates can confidently present themselves and produce creative media content in order to influence others in a positive way.

The level 6 entry point allows students who have successfully completed a level 5 qualification, such as a Foundation Degree (FdSc) or Higher National Diploma (HND), to step up to the BA (Hons) Equine Business Management qualification. The knowledge and experience gained during the previous study will provide students with a varied background which they will be able to build on at level 6.

At level 6, the BA (Hons) Equine Business Management provides students with the opportunity to further specialise into aspects of media, strategic management and global sustainability which relates to their future career paths within the industry. The programme combines the development of knowledge via teaching, research and practical skills to develop a graduate who can make an effective contribution to the equine related industries and positively influence the strategic direction. It has been shown that the balance of skills developed on the programme will also enable graduates to gain employment in other occupational areas, if they so wish.

This programme will be assessed according to the approved Academic Regulations.

Students registered on this programme will have access to the Hartpury University support services.

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be

Undergraduate Dissertation or Applied Research Project.
