Part 2: Programme Overview

BSc (Hons) Physical Education and School Sport graduates are conversant with the Physical Education and School Sport (PESS) agenda and underpinning policy framework and work effectively to promote PESS in both primary and secondary education settings and challenge current PESS practices and processes. Graduates demonstrate an appreciation for relevant PE and pedagogy and apply this in practice, to have a positive impact across the breadth and depth of the National Curriculum.

Graduates will have benefited from consistent and progressive practical experiences including hands on teaching practice. Graduates have been encouraged to seek a range of experiences and placement opportunities to develop their self-confidence, knowledge and understanding and explore a variety of potential professional exit routes following graduation. Graduates have developed the skills, knowledge and attributes required to be workplace ready.

Part 3: Programme Structure

This structure diagram demonstrates the student journey from enrolment through to graduation for a typical **full-time student on the primary programme**, including:

- level and credit requirements
- award requirements that are in addition to those described in the Hartpury University Academic Regulations
- module diet, including core and optional modules.

Please note:

*PAB – these modules are subject to additional and variant regulations as part of an accreditation by a professional accrediting body

+ Non-condonable – these core modules are not able to be condoned

Part 5: Learning, Teaching and Assessment

Learning, Teaching and Assessment Journey:

The BSc (Hons) Physical Education and School Sport degree is designed to develop knowledge, understanding and practical application skills within its learners. Content and assessment are designed to prepare students for continued studies and progression on to PGCE or equivalent programmes, in order to for full their career ambitions of becoming a PE teacher.

Situational learning is embedded at all levels through teaching placement to engage with industry, enabling observation of teaching practice and developing high quality teaching skills. This approach will provide a balanced vocational and academic study that is intellectually challenging, vocationally relevant, and provides a foundation for pursuing a career within teaching and the educational sector.

Teaching and learning strategies are designed to ensure students are given opportunities to apply theory into practice in all areas of the national curriculum and key stage. The programme adopts a student-centred learning approach in order to cater for individual needs and enhance the student experience.

Students are able to shape and personalise their own individual learning experience and journey throughout the programme in order to match future career aspirations within the Physical Education and Sports sector. This will be achieved through optional module choices and placement opportunities within industry throughout the degree and additional qualifications and certification. Students engage in varied school placements and situational learning environment to encourage the contextualisation of learning and development of effective teaching practice. Students will be exposed to the breadth and depth of the National Curriculum and thus the varying teaching environments such activities are to be delivered in, such as the swimming pool and varied outdoor learning spaces. There are a number of additional learning opportunities via extra-curricular activities and CPD opportunities through external partnerships.

The programme is designed to develop and support a can-do attitude in graduates, to produce autonomous and determined individuals who question practice and apply the skills they have learnt to propose effective solutions to real-world problems in a professional manner.

Assessment within the Foundation Year had been designed to prepare a student for the assessment to come in following years. As such, it demonstrates a breadth of type and gradual introduction to the expectations for HE level study.

Assessment of knowledge and understanding is through a variety of formative and summative means in accordance with employability standards in relation to PGCE criteria, Newly Qualified Teacher requirements, as well as various roles within the school sports development industry.

Placement opportunities are included as part of compulsory modules at each level of the programme (Curriculum Studies at Year 1, School Sports Development at Year 2 and Reflective Portfolio at Year 3). In line with professional development standards these modules will also include assessments based upon work-based placements. In this instance, subject specific, professional and practical skills are assessed through reflection on teaching practice, portfolios and practical assignments. In addition, students' learning will be assessed by written assignments, oral presentations, reports related to work-

Part 5: Learning, Teaching and Assessment

based learning, practical examinations and problem-based learning to encourage critical appraisal when linking theoretical concepts into applied practice. See assessment map for further details of where in the programme students' achievement of the programme's learning outcomes will be assessed.

This programme will be assessed according to the approved Academic Regulations.

Students registered on this programme will have access to the Hartpury University support services.

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be: Reflective Portfolio

Approval Committee and Date:	Refresh Approval Panel action 2022 03 21
Change approved with effect from:	01 September 2022 (2020 intake onwards)
Resulting new version number:	9.0

Current version number: 8.0	
Outline Change Details: Part 6: School Sports Development has moved from two points of assessment to one. Consolidating components A and B assessments in 1 component A (portfolio).	
Material Alteration: No	
Rationale: Incorporating the practical assessment as a formative task as part of the portfolio enhances the learning opportunities for all students by enabling both assessment of and for learning. Enabling student to demonstrate links to theory and practice periodically, thus enhancing learning opportunities for all. Recognising the increasing cohort size on the PESS programme and our vision to grow and the ability to implement single 1 hour practical assessments within an assessment period is not sustainable.

Current version number: 7.4	
Outline Change Details: Parts 3 and 6 updated in line with module amendments: HANVG4-15-3 Foundation Skills Development Module code changed from HANV8A-30-3 to HANVG4-15-3 - reduced to 15 credits. Assessment component A changed from written exam to in class test. HANVG3-30-3 Foundation Sports Science Module code changed from HANV8F-15-3 to HANVG3-30-3 - increased to 30 credits. Assessment component B changed from in class test to written examination. Reflective portfolio – components corrected Parts 1 and 3: Foundation interim award updated to Higher Education Foundation Certificate in Academic Skills	
Material Alteration: Yes	
Rationale: Updated to reflect module changes: modules amended in response to students' request for more subject-specific content in the Foundation year second semester. Interim award: after a review of the interim award titles, it was agreed this revised title provided better clarity.

Version 4.1 (2018+) **Periodic Curriculum Review**

Outline Change Details: Update of valid to/from dates.	
Rationale: The Sport Periodic Curriculum Review (PCR) on 2 nd May 2018 confirmed revalidation of the programme.	
Change requested by:	PCR 02 May 2018
PCR approval date:	02 May 2018
Change approved with effect from:	01 September 2018

Version 2.1 (2018)

Rationale: The development of this programme has occurred following the recent sport business management PCR and the associated outcomes to review the current curriculum (subject areas, assessment and trips). Name change from The Legacy and Impact of Sports Events to The Impact of Sports Events will naturally remove the word legacy from the title and learning outcomes, a term discredited for lacking a clear meaning. The change will allow a focus on impact and influence, concepts significantly more translatable in relation to sports events
