Part 2: Programme Overview

BSc Equestrian Sports Coaching graduates will have developed a personal coaching philosophy grounded in reflection upon both practice and 'self', contextual to the needs of the equestrian athlete. They will be optimally placed to positively influence the equine industry as equestrian sports coaches, with a solid underpinning in coaching theory which they can practically apply to a range of coaching scenarios. Graduates will have an applied understanding of equitation science, enabling them to educate horse riders in the use of ethical training methods and principles. Graduates will be able to constructively challenge current practices, communicate information to athletes and clients that they encounter and explore new concepts, in order to safeguard the horse. Graduates will appreciate the complexities involved in facilitating human behaviour change and communicate challenging topics to a range of audiences effectively.

Part 5: Learning, Teaching and Assessment

Learning, Teaching and Assessment Journey:

Teaching and learning will occur through a mix of scheduled and independent learning. Students learn through a variety of approaches, therefore a range of methods are used within taught delivery. These include, but are not limited to; lectures, practical coaching sessions within a variety of groups/populations, debates, laboratory (practical and computer based) sessions, work-related learning and seminar/discussion sessions centered around current published literature.

A wide range of assessment types are utilised within the modules offering students the opportunity to excel through written examinations and assignments, oral assessments related to case study scenarios enabling students to practice developing their skills in varied communication methods to a range of audiences. Students will be assessed within a variety of coaching practical domains e.g. peer coaching and coaching flatwork, jumping, groups and individuals to suit industry requirements.

A key feature of the BSc (Hons) Equestrian Sports Coaching is the assessed portfolios, completed during each year of study. Portfolios offer the opportunity for students to align undergraduate study to existing professional work programmes, which maximise the authenticity of their independent learning. Coaching learning portfolios involve coaches in individual and group reflection, the critically challenging act of thinking about coaching practice, and constructing (and communicating) a sense of the learning experience as a coherent developmental process. Such thinking and sharing are the linchpins of lifelong, active learning and every practitioner's professional development. Through investment in and accumulation of a coaching portfolio students will start to develop their ability to critically reflect and practice with purpose, thus continually becoming a more appropriately qualified practitioner.

This programme will be assessed according to the approved Academic Regulations.

Students registered on this programme will have access to the Hartpury University support services.

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be:

Change approved with effect from:	1 st September 2019 (2019 intake)
New version number:	4.0

Version 2.1

Rationale: After the successful application for University Title, amendments were required to all specifications.	
Material Alteration: Yes and Course Information Sheet amended appropriately: Not required	
Outline Change Details: 1. Part 1: Basic Data requires the Awarding Body to be amended from Hartpury College to Hartpury University. 2. Award Titles amended to replace (SW) with (IP). 3. Removed BUWE B80 4. Subject Benchmark Statements updated where required.	
Change requested by:	Academic Registrar
CVC approval date:	31 August 2018
Change approved with effect from:	01 September 2018
New version number:	3.0

Version 2.1

Rationale: Because of increasing cohort size on ESS & ESC, and the addition of the new MSci ST Equestrian programme to the module, the current assessment strategy is considered ineffective.
--

Furthermore, ESS lacks individual presentations at second year with multiple orals in final year which has created a mis-match in assessment strategy, and ST (E) and ESC are both programmes where oral communication skills are competencies required for successful careers.	
Material Alteration: Yes and Course Information Sheet amended appropriately: No	
Outline Change Details: Horse and Rider Performance HEQXRH-30-5 altering assessment strategy to include 40% Oral Presentation and 60% Written Assignment.
