

Programme Specification

Part 1: Basic Data			
Primary Programme Title	BSc (Hons) Equestrian Sports Science		
Target Award Titles	Mode and Typical Duration of Study	Professional Accrediting Body Links	Study Abroad / Exchange / Credit Recognition
BSc (Hons) Equestrian Sports Science	Stage 0 entry: Full time 4 years Part time: 8 years Stage 1 entry: Full time, 3 years Part time, 6 years	None	None
BSc (Hons) Equestrian Sports Science with integrated placement year	Stage 0 entry: Full time 5 years Part time: 9 years Stage 1 entry: Full time, 4 years Part time, 7 years	None	None
Interim Award Titles	BSc Equestrian Sports Science BSc Equestrian Sports Science with integrated placement year BSc Equestrian Sports Studies BSc Equestrian Sports Studies with integrated placement year Diploma of Higher Education in Equine Studies Certificate of Higher Education in Equine Studies Undergraduate Certificate in Equine Studies Certificate in Academic Skills Higher Education Foundation Certificate in Academic Skills		
Teaching Delivery Method	On-site		
Awarding Institution	Hartpury University		
Teaching Institution	Hartpury University		
Delivery Location	Hartpury		
Department Responsible for Programme	Equine		
Unit-E Code	BHSEESSX		
Entry Criteria Information	Applicants will have achieved entry criteria appropriate for the stage of entry, which can be found through the Hartpury website (www.hartpury.ac.uk).		

Most Recent Validation Date	11 April 2022	Due for Re-validation By	01 September 2027
Amendment Approval Date	V9.1 – 21 July 2022 V9.2 - 30 November 2022 V9.3 - 6 March 2023	Approved With Effect From	V9.1 – 01 September 2022 V9.2 - 30 November 2022 V9.3 - 01 September 2023
Professional Accrediting Body Approval Date	N/A	Date for Re-accreditation	N/A
Version	9.3		

Part 2: Programme Overview

BSc (Hons) Equestrian Sports Science graduates will be able to assess horse and rider partnerships and monitor and track progress of equestrian athletes using the latest technology. Graduates will have the practical skills to assess the fitness and movement patterns for both horse and rider, and use information gathered to consider risk factors for injury in equestrian sport. Graduates will also have the ability to implement interventions to aid and enhance successful competitive equestrian performance. Graduates will be able to use sports science principles to evaluate equestrian performance within a range of disciplines and recommend evidence-based solutions for improvement. Graduates may have ridden as part of their programme of study however this is not a requirement for the programme. Graduates will be able to effectively work within interdisciplinary teams to communicate recommendations for enhancing performance in equestrian partnerships.

BSc (Hons) Equestrian Sports Science with integrated placement year graduates will be able to assess horse and rider partnerships and monitor and track progress of equestrian athletes using the latest technology. Graduates will have the practical skills to assess the fitness and movement patterns for both horse and rider, and use information gathered to consider risk factors for injury in equestrian sport. Graduates will also have the ability to implement interventions to aid and enhance successful competitive equestrian performance. Graduates will be able to use sports science principles to evaluate equestrian performance within a range of disciplines and recommend evidence-based solutions for improvement. Graduates may have ridden as part of their programme of study however this is not a requirement for the programme. Graduates will be able to effectively work within interdisciplinary teams to communicate recommendations for enhancing performance in equestrian partnerships.

Graduates will have experience of working within the equine or sporting industries.

Part 3: Programme Structure

This structure diagram demonstrates the student journey from enrolment through to graduation for a typical **full time student on the primary programme**, including:

- level and credit requirements
- award requirements that are in addition to those described in the Hartpury University Academic Regulations
- module diet, including core and optional modules.

Please note:

*PAB – these modules are subject to additional and variant regulations as part of an accreditation by a professional accrediting body

+ Non-condonable – these core modules are not able to be condoned

Where alternative modules were available for pre-2022 module enrolments, this is indicated by a T

	Core Modules	Optional Modules	Target and Interim Awards
Stage 0	HANV8B-30-3 Academic Skills in Practice (Internship) HANV8E-30-3 Foundation Biological Principles HANVFE-30-3 Foundation Equine Studies OR HANV8H-15-3 Foundation Equine Studies ^T HANVG4-15-3 Foundation Skills Development OR HANV8A-30-3 Foundation Skills Development ^T HANV8C-15-3 Reviewing Literature	None	Higher Education Foundation Certificate in Academic Skills Certificate in Academic Skills
	To progress to stage 1 you must achieve at least 90 credits.		

Stage 1	<p>HEQXN8-30-4 Equine Functional Anatomy</p> <p>HSPXL8-30-4 Introduction to Functional Anatomy and Sports Biomechanics</p> <p>HSPXLE-15-4 Introduction to Sport and Exercise Psychology</p> <p>HEQV7X-15-4 Introduction to Equestrian Performance</p> <p>OR</p> <p>HEQXN7-30-4 Introduction to Equestrian Sport^T</p> <p>HSPXL7-15-4 Introduction to Exercise Physiology</p> <p>OR</p> <p>HEQXN7-30-4 Introduction to Equestrian Sport^T</p>	<p>Either:</p> <p>HEQXN6-15-4 Equitation</p> <p>OR</p> <p>HEQVC6-15-4 Introduction to Equine Nutrition^T</p> <p>OR</p> <p>HEQVCA-15-4 Equitation (Theory)</p>	<p>Undergraduate Certificate in Equine Studies</p> <p>Certificate of Higher Education in Equine Studies</p>
<p>To progress to stage 2 you must achieve at least 90 credits.</p>			

Stage 2	<p>HEQVKP-15-5 Equine Exercise Physiology OR HEQXRG-30-5 Equine Exercise Physiology^T</p> <p>HEQXRH-30-5 Horse and Rider Performance⁺</p> <p>HEQXR8-15-5 Introduction to Equine Biomechanics OR HEQXRG-30-5 Equine Exercise Physiology^T</p> <p>HEQVJA-15-5 Research Methods for Equine Science OR HANXU5-15-5 Undergraduate Research Process^T</p>	<p>HSPV5X-15-5 Applied Biomechanics in Sport</p> <p>HSPVC5-15-5 Applied Performance Analysis</p> <p>HSPXSB-15-5 Exercise Physiology</p> <p>HSPXRV-15-5 Sport Psychology</p> <p>OR <i>(pre-2022 module enrolments only)</i></p> <p>HEQXR5-15-5 Advanced Equitation^T</p> <p>HEQXR9-15-5 Equine Diagnostics and Therapy^T</p> <p>HEQXRC-15-5 Equine Nutrition^T</p> <p>HSPXS9-15-5 Sports Nutrition^T</p> <p>HSPVB6-15-5 Strength and Conditioning in Practice^T</p>	<p><u>Diploma of Higher Education in Equine Studies</u></p>
	<p>Integrated Placement Year: HANVK6-15-5</p>		
	<p>To progress to stage 3 you must achieve at least 210 credits.</p>		

Stage 3	<p>HEQV4G-30-6 Developing and Managing Human Athletes in Equestrian Sport OR HEQV4G-30-6 Advances in Horse and Rider Performance^T</p> <p>HEQVKT-45-6 Undergraduate Dissertation OR HANV3R-45-6 Undergraduate Dissertation^T</p>	<p>HEQVGM-15-6 Applied Equine Biomechanics</p> <p>HSPV3T-15-6 Applied Sport and Exercise Physiology</p> <p>HSPVA6-15-6 Biomechanics in Sport Practice</p> <p>HSPVA9-15-6 Performance Analysis in Practice</p> <p>HSPV4A-15-6 Sport Psychology in Action</p> <p>OR (pre-2022 module enrolments only)</p> <p>HEQV4H-15-6 Contemporary Issues in Equestrian Sport^T</p> <p>HEQV4N-15-6 Equine Sports Medicine^T</p> <p>HEQV4P-15-6 Equine Therapy and Rehabilitation^T</p> <p>HANV3M-15-6 Undergraduate Independent Study^T</p>	<p><u>BSc Equestrian Sports Science</u> This must include HEQVKP-15-5, HEQXRH-30-5, HEQV4G-30-6</p> <p><u>BSc Equestrian Sports Science (IP)</u> This must include HEQVKP-15-5, HEQXRH-30-5, HEQV4G-30-6, HANVK6-15-5</p> <p><u>BSc Equestrian Sports Studies</u></p> <p><u>BSc Equestrian Sports Studies (IP)</u> This must include HANVK6-15-5</p> <p><u>BSc (Hons) Equestrian Sports Science</u> This must include all core modules</p> <p><u>BSc (Hons) Equestrian Sports Science (IP)</u> This must include all core modules and the Integrated Placement Year module.</p>

Part time:

The part time student journey from entry through to graduation is individually negotiated with the student.

Part 4: Programme Learning Outcomes

Modules in bold are core modules and modules not emboldened are optional modules.

A denotes a module that assesses a learning outcome and B denotes a module aligned with a learning outcome.

T = or alternative presented in part 3 programme structure

Learning Outcomes:	Equine Functional Anatomy	Introduction to Functional Anatomy and Sports Biomechanics	Introduction to Sport and Exercise Psychology	Introduction to Equestrian Performance^T	Introduction to Exercise Physiology^T	Equitation^T	Equitation (Theory)	Equine Exercise Physiology^T	Introduction to Equine Biomechanics^T	Horse and Rider Performance	Research Methods for Equine Science^T	Applied Biomechanics in Sport	Applied Performance Analysis	Exercise Physiology	Sport Psychology	Integrated Placement Year	Developing and Managing Human Athletes in Equestrian Sport^T	Undergraduate Dissertation^T	Applied Sport and Exercise Physiology	Biomechanics in Sport Practice	Performance Analysis in Practice	Sport Psychology in Action	Applied Equine Biomechanics
A) Knowledge and Understanding of:																							
1. The theoretical basis of equestrian sports performance including physiology, biomechanics, and psychology	B	A	A		A			A	A	A		A		A	A								
2. Current developments in the governance and structure of equestrian sports including the influence on competitive performance				B		B	B										A	B					
3. The potential of equitation science in improving the sustainability of equestrian				A		B	B			B							A						

sport and equestrian performance																									
4. How equestrian sports science disciplines interact to improve performance				B						B								A							
B) Intellectual Skills																									
1. Demonstrate a critical understanding of the factors that contribute to equestrian performance				B						B								A							
2. Evaluate a range of methods for assessing horse and rider interaction									B	A			B	B							B	B			B
3. Propose and critically evaluate the efficacy of a range of interventions for enhancing equestrian performance																		A							
4. Appraise the importance of an inter-disciplinary approach in relation to equestrian performance and wellbeing			B	B						A					B			A							
5. Critically evaluate how far human research can be applied to equestrian sports				B						B								A	A						
C) Performance and Practice																									
1. Relate to and cooperate with others in contributing to group goals		A							A		B		B								B	A			
2. Utilise human and equine exercise testing protocols to analyse athlete performance					B				A		B				A					A					
3. Demonstrate the ability to utilise technology to analyse a horse rider partnership		B			B				B	A			B	B	B					A		A	A		A

D) Setting, Personal and Enabling Skills																								
1. Communicate complex sports science principles to lay audiences (coach, athlete, industry) in written and verbal media										A				B	B					A	B	B	B	B
2. Prepare, interpret and present data, using appropriate qualitative and quantitative techniques and software packages								B	B	A	A				B	B			A	B				A
3. Utilise problem solving skills in a variety of theoretical and practical situations		B						A	A	A	B	B	B		B	A	A	A	B	B	B			B

Part 5: Learning, Teaching and Assessment

Learning, Teaching and Assessment Journey:

This programme will enable students to develop a greater understanding of the underpinning sports science principles applied to horse and rider in a range of equestrian disciplines. Students will be challenged to demonstrate a range of academic and graduate skills during their degree, to evaluate equestrian performance and develop skills relevant to a career within sports science and equestrian sport, using a variety of assessment methodologies used at each stage.

The first stage of the programme aims to establish underpinning scientific knowledge on the fundamentals of sport and exercise science: physiology, biomechanics and psychology, contextualised to the horse and rider in equestrian sport. Students will be taught using a mixture of classroom and practical based learning to apply theory to real world examples in both sport and equine contexts. In practical sessions, students will develop their skills in the basic assessment and measurement of human movement, rider posture and measuring human responses to exercise and rest, which will become the fundamental building blocks for level five modules. Students will be asked to work individually and in groups during classroom tasks, as well as assessment, to begin to develop effective communication.

In the second year, students will continue to apply sport and exercise science principles of biomechanics, physiology and psychology to the horse and rider, through a combination of core and optional modules. Students will develop their ability to evaluate factors influencing performance for the horse and rider partnership and develop their academic work to enhance their intellectual skills. Students will also develop their practical skills to evaluate physiological and biomechanical demands of equestrian partnerships, measure horse and rider interaction, and analyse performance in a range of disciplines. Delivery will encourage students to develop autonomy in their practical skills, building upon the foundations of the first year, furthering their employability within sports science and equestrian performance.

The final stage of the programme will allow students to develop understanding of how to improve performance in equestrian sport and manage elite athlete combinations in high performance environments, whilst critically appraising the emerging issues within equestrian performance practice. Students are encouraged to further apply theory to practice and engage in problem-based learning in the classroom, seminar and practical sessions, to enhance their understanding of equestrian athletes. Students will complete their own independent research project which can be tailored to their career aspirations in the dissertation module.

This programme will be assessed according to the approved Academic Regulations.

Students registered on this programme will have access to the Hartpury University support services.

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be:

Developing and Managing Equestrian Athletes

Professional Accrediting Body documents to which this programme is mapped and or aligned:

	Biomechanics in Sport Practice							B (30) Group In-Class Practical Skills Assessment with a group mark	A (70) Group Oral Presentation with Questions individually marked
	Performance Analysis in Practice								A (100) Poster Defence
	Sport Psychology in Action	A (100) Essay							

Indicative assessment types for new students enrolling on this programme after the date this specification takes effect (Part 1) are shown in terms of either **Coursework**, **Written Examination**, or **Practical Examination** as indicated by the colour coding above.

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of individual modules can be found through Hartpury's website (www.hartpury.ac.uk).

Approved Programme Amendment Log

Primary Programme Title:	BSc (Hons) Equestrian Sports Science
Programme Code:	BHSEESSX
Initial Approval Date:	01 September 2018

Changes:

18/04/2023: correction of typographical error

Part 3: Target and Interim awards - Cert HE and Dip HE corrected from 'in Higher Education' to 'of Higher Education'.

CSP Chair's Action 2023 04 18 L Dumbell

Current version number: 9.2	
Outline Change Details: Part 5: Assessment Map updated to reflect module amendment - Stage 1 / Level 4 core module Introduction to Functional Anatomy and Sports Biomechanics Component B changed from Practical Skills Logbook to Test Series.	
Do the changes presented alter the mapping against the Hartpury University Curriculum Framework (delete as appropriate)? No	
If yes, please provide the details of the changes:	
Material Alteration: Yes	
Rationale: to ensure accuracy following change to module.	
Change requested by: Laurence Protheroe I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report <div style="display: flex; justify-content: space-between;"> <div> Signature:  </div> <div> Date: 15/02/23 </div> </div>	
Name of Head of Department: Catherine Porter I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department <div style="display: flex; justify-content: space-between;"> <div> Signature:  </div> <div> Date: 09/03/2023 </div> </div>	
Approval Committee and Date:	CVC Chair's action 2023 03 06
Change approved with effect from:	01 September 2023
Resulting new version number:	9.3 (2021 intake onwards)

Current version number: 9.1	
Outline Change Details: Part 5: Assessment Map – assessment for Stage 2 / Level 5 optional module Applied Biomechanics in Sport changed from Seen Case Study Written Examination to Case Study Test.	
Material Alteration: No	
Rationale: To reflect module amendment.	
Change requested by: Alice Tocknell I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted	

I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report	
Signature: A.Tocknell	Date: 28.11.22
Name of Head of Department: Catherine Porter	
I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department;	
Signature: 	Date: 22/11/2022
Approval Committee and Date:	CSP 2022 11 30
Change approved with effect from:	30 November 2022
Resulting new version number:	9.2 (2020 intake onwards)

21/09/2022 Transition modules added to stage 0 as previously omitted in error.
CSP Chair's action 2022 09 21

Current version number: 9.0	
Outline Change Details: Part 5: Assessment Map – Introduction to Exercise Physiology assessment changed from two in-class tests and a written examination (all Component A) to in-class test (10%) and written examination (40%) (Component A) and Group Practical Skills Assessment individually marked (50%) (Component B), in line with module amendment.	
Material Alteration: Yes	
Rationale: to reflect module amendment.	
Change requested by: CVC N/A I can confirm that student representatives have been consulted about this change N/A I can confirm that colleagues impacted by this change have been consulted N/A I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report	
Date: 21/07/2022	
Approval Committee and Date:	CVC 2022 07 21
Change approved with effect from:	01 September 2022
Resulting new version number:	9.1 (2020 intake onwards)

Current version number: 8.0
Outline Change Details: <ul style="list-style-type: none"> Change to the programme overview to better reflect the nature of the course & the practical skills that will be developed to assess horse-rider interaction. New template Changes to programme map HEQVC6-15-4 Introduction to Equine Nutrition removed as Level 4 optional module, HEQVCA-15-4 Equitation (Theory) added HEQXN7-30-4 Introduction to Equestrian Sports removed as Level 4 core module HEQV7X-15-4 Introduction to Equestrian Performance and HSPXL7-15-4 Introduction to Exercise Physiology added as Level 4 core modules HEQVJA-15-5 Research Methods for Equine Science replaces HANXU5-15-5 Undergraduate Research Process HEQVKP-15-5 Equine Exercise Physiology replaces HEQXRG-30-5 Equine Exercise Physiology HEQXR8-15-5 Introduction to Equine Biomechanics added as Level 5 core module HEQXR5-15-5 Advanced Equitation, HSPXS9-15-5 Sports Nutrition, HEQXR9-15-5 Equine Diagnostics and Therapy, HEQXRC-15-5 Equine Nutrition, HANXRR-45-5 International Academic Study Extended Project HANXRP-15-5 International Academic Study Portfolio HANXRQ-30-5, International Academic Study Project and HSPVB6-15-5 Strength and Conditioning in Practice removed as Level 5 optional modules

HEQV4G-30-6 Developing and Managing Human Athletes in Equestrian Sport added as Level 6 core module
 HEQVGM-15-6 Applied Equine Biomechanics and HSPV3T-15-6 Applied Sport and Exercise Physiology added as Level 6 optional modules
 HEQV4H-15-6 Contemporary Issues in Equestrian Sport, HEQV4M-15-6, Equine Nutrition for Performance, HEQV4N-15-6 Equine Sports Medicine, HEQV4P-15-6 Equine Therapy and Rehabilitation and HANV3M-15-6 Undergraduate Independent Study removed as Level 6 optional modules

- New programme learning outcomes
- New T&L strategy
- Changes to assessment map to reflect new guidance & modules

Material Alteration: Yes and is accompanied by the relevant course information document.

Rationale:

- Curriculum Scrutiny for HE Equine Department
- Refresh (wider University)
- Need to streamline optional provision to support resourcing & timetabling. Stronger programme identity & alignment towards the BASES guidance for UG sports science programmes.

Change requested by: Emma Davies

I can confirm that student representatives have been consulted about this change

I can confirm that colleagues impacted by this change have been consulted

I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report

Signature:

Date: 12.11.21

Name of Head of Department: Catherine Porter

I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department;

Signature:

Date: 20/11/2021

Approval Committee and Date:

Curriculum Validation Committee action 2022 04 11

Change approved with effect from:

01 September 2022

Resulting new version number:

9.0 (2020 intake onwards)

Current version number: 7.4

Outline Change Details:

Parts 1 and 3: Foundation interim award updated to Higher Education Foundation Certificate in Academic Skills.

Parts 3 and 6 updated in line with module amendments at Foundation Year:

HANVG4-15-3 Foundation Skills Development

Module code changed from HANV8A-30-3 to HANVG4-15-3 - reduced to 15 credits.

Assessment component A changed from written exam to in class test.

HANVFE-30-3 Foundation Equine Studies

Module code changed from HANV8H-15-3 to HANVFE-30-3 - increased to 30 credits.

Assessment component B changed from in class test to written examination.

Material Alteration: Yes

Rationale:

Interim award - after a review of the interim award titles, it was agreed this revised title provided better clarity.

Modules at Foundation stage updated to reflect module changes; modules amended in response to students' request for more subject specific content in the Foundation year second semester.

Change requested by: Dr Hieke Brown X I can confirm that student representatives have been consulted about this change X I can confirm that colleagues impacted by this change have been consulted X I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report	
Signature: <i>Dr Hieke Brown</i>	Date: 04/03/2021
Name of Head of Department: Catherine Porter I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department 	
Signature:	Date: 23/03/2021
Approval Committee and Date:	CVC Chair's action 2021 04 26
Change approved with effect from:	01 September 2021
Resulting new version number:	8.0 (2021 intake onwards)

26/01/2021 - corrections to change log for version 7.4. Current version corrected to 7.2 and new version corrected to 7.4 (2020 intake onwards).

Current version number: 7.1 7.2	
Outline Change Details: Parts 3, 4, 5 & 6: Module HANVK6-15-5 name changed from Year Work Placement to Integrated Placement Year, in line with module amendment. Part 6: assessment for component A of module HANV8E-30-3 Foundation Biological Principles amended from practical exam to practical skills assessment; Introduction to Sport and Exercise Psychology component A changed from written exam to open book exam; Sport Psychology changed from portfolio to written assignment, in line with module amendments. Part 3: module code for Biomechanics in Sport Practice corrected from HSPV6A-15-6 to HSPVA6-15-6	
Material Alteration: Yes and is accompanied by the relevant course information sheets.	
Rationale: to ensure accuracy	
Change requested by: CVC n/a I can confirm that student representatives have been consulted about this change n/a I can confirm that colleagues impacted by this change have been consulted n/a I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report Date: 30/07/2020	
Approval Committee and Date:	CVC Chair's action 2020 08 13
Change approved with effect from:	1 September 2020
Resulting new version number:	7.3 (2019 intake) 7.4 (2020 intake onwards)

Current Version number: V7.1	
Rationale: To ensure accuracy of information	
Material Alteration: No	
Outline Change Details: 1. Update interims 2. Amendment to part 6- Undergraduate Research Process 3. removal of part 8 in line with new template	
Change requested by:	Academic Registrar
CVC approval date:	CSP Chair's action 6 May 2020
Change approved with effect from:	01 September 2020
New version number:	7.2 (2019+ intake)

Current version number: 7.0	
Outline Change Details: <i>Updated the assessment map for Equine Exercise Physiology to remove the Group Presentation (Comp A, 2) and subsequently changed the assessment weighting to 50% :50%</i>	
Material Alteration: No	
Rationale: The removal of the group presentation has come about following repeated staff and External Examiner concerns that the module is currently over-assessing the students and consequentially creating more work for the module team. Whilst the group presentation gets the students developing their transferable skills, the LO's are better assessed through the examination and the written assignment, and group work and presentation skills can be developed formatively within the module.	
Module description for Course Information Sheets: No change	
Change requested by: Kirsty Lesniak <ul style="list-style-type: none"> ✓ I can confirm that all programme managers have been consulted and support this change ✓ I can confirm that student representatives have been consulted about this change ✓ I have retained evidence of this consultation which has been placed in the Module File 	
Signature: 	Date: 05/07/2019
Name of Head of Department: Catherine Porter <ul style="list-style-type: none"> ✓ I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department 	
Signature: 	Date: 12/07/2019
Approval Committee and Date:	06 August 2019
Change approved with effect from:	01 September 2019
Resulting new version number:	7.1 (2019+ intake)

Current version number: 6.0 (current)
Outline Change Details: There are amendments to modules in level 5 & 6 regarding the optional module provision on this Programme in line with the changes being made in Sport through PCR. The modules changed listed below include changes within Part 3 (Programme Structure), Part 4 (Programme Learning Outcomes) and Part 6 (Assessment Map): <ul style="list-style-type: none"> – Removal of 'Fitness Training & Testing', 'Soft Tissue Techniques' & 'Injured Athlete' at level 5 – Addition of 'Applied Performance Analysis', 'Applied Biomechanics in Sport' & 'Strength and Conditioning in Practice' modules at level 5 – Removal of 'Sports Injury Assessment', 'Injury Prevention and Rehabilitation' & 'Contemporary Issues in Sports Conditioning' at level 6 – Addition of 'Biomechanics in Practice' & 'Performance Analysis in Practice' at level 6 <p>In addition, change to module 'Animal Nutrition' at level 4, to 'Introduction to Equine Nutrition' which will be taught within the HE Equine provision and replace the pre-requisite to Equine Nutrition at level 5.</p> <p>Removal of Equine Biomechanics at year 2 and Applied Sport and Exercise Physiology at year 3 from the programme.</p>
Material Alteration: Yes and is accompanied by the relevant course information sheets.
Rationale: Following the Sports Department Periodic Curriculum Review in 2017/18, the revision of Sport-led modules that are situated on the BSc (Hons) Equestrian Sports Science map were reviewed within the Sport provision to support the changing context of the Sport & Exercise Science industry and in line with the British Sport & Exercise Science guidance. Revisions have been made, alongside Student Consultation and the Sports Department staff to ensure the Learning Outcomes of the ESS programme are still met, that the Programme is relevant to the students potential careers within Sport & the Equestrian industries and

that a complimentary profile of Sport & Exercise Science topics were available to the students on ESS as a result of the changes, and new modules introduced to the course.

Rationale for the Introduction to Equine Nutrition module is based on current and historical student feedback on the module Animal Nutrition, in addition to a reflection on the continuity of the strand across level 4, 5, 6, allows students a greater contextualized equine application to support level 5 & 6 understanding.

C Phillips

Date: 11/03/2019

Approval Committee and Date: CVC 2019 02 27

Change approved with effect from: 01 September 2019

Resulting new version number: 7.0 (intake 2019)

Rationale: After the successful application for University Title, amendments were required to all specifications.

Material Alteration: Yes and Course Information Sheet amended appropriately: Not required

Outline Change Details: 1. Part 1: Basic Data requires the Awarding Body to be amended from Hartpury College to Hartpury University. 2. Award Titles amended to replace (SW) with (IP) 3. Subject Benchmark Statements updated where required.

Change requested by: Academic Registrar

CVC approval date: 31 August 2018

Change approved with effect from: 01 September 2018

New version number: 6.0

Version 3.0

Outline Change Details: Addition of an optional Sandwich Integrated Placement Year between level 5 and 6. For 2018 intake onwards.

Rationale: The option of work experience, study abroad, and placement or sandwich year options will support the development of practical skills within this area and increase student experience.

Change requested by: Emma Davies

CVC approval date: 13 February 2018

Change approved with effect from: 01 September 2018

Version 3.1

Rationale: Because of increasing cohort size on ESS & ESC, and the addition of the new MSci ST Equestrian programme to the module, the current assessment strategy is considered ineffective. Furthermore, ESS lacks individual presentations at second year with multiple orals in final year which has created a mis-match in assessment strategy, and ST (E) and ESC are both programmes where oral communication skills are competencies required for successful careers.

Material Alteration: Yes and Course Information Sheet amended appropriately: No

Outline Change Details: Horse and Rider Performance HEQXRH-30-5 altering assessment strategy to include 40% Oral Presentation and 60% Written Assignment.
