

Programme Specification

Part 1: Basic Data			
Primary Programme Title	BSc (Hons) Agriculture		
Target Award Titles	Mode and Typical Duration of Study	Professional Accrediting Body Links	Study Abroad / Exchange / Credit Recognition
BSc (Hons) Agriculture	Stage 0 Entry: Full time 4 years, Part time 8 years Stage 1 Entry: Full time 3 years, Part time 6 years Stage 3 Entry: Full time 1 year, Part time 2 years	None	Study Abroad
BSc (Hons) Agriculture with integrated placement year	Stage 0 entry: Full time 5 years, Part time 9 years Stage 1 entry: Full time 4 years, Part time 7 years	None	Study Abroad
Interim Award Titles	BSc Agriculture BSc Agriculture with integrated placement year Diploma of Higher Education in Agriculture Certificate of Higher Education in Agriculture Undergraduate Certificate in Agricultural Studies Certificate in Academic Skills Higher Education Foundation Certificate in Academic Skills		
Teaching Delivery Method	On-site		
Awarding Institution	Hartpury University		
Teaching Institution	Hartpury University		
Delivery Location	Hartpury		
Department Responsible for Programme	Animal and Agriculture		
Unit-E Code	BSHCAGXX / BSHCAGX6 (Level 6 entry)		
Entry Criteria Information	Applicants will have achieved entry criteria appropriate for the stage of entry, which can be found through the Hartpury website (www.hartpury.ac.uk)		
Most Recent Validation Date	20 April 2022	Due for Re-validation By	01 September 2027
Amendment Approval Date	V7.0 – 07 March 2023 V7.1 – 19 July 2023	Approved With Effect From	V6.0 – 01 September 2022 V7.1 – 01 September 2023

Professional Accrediting Body Approval Date	N/A	Date for Re-accreditation	N/A
Version	7.1		

Part 2: Programme Overview

BSc (Hons) Agriculture graduates can identify the diversity of the agricultural industry across local, national and global sectors. They have developed a comprehensive knowledge and understanding of the science behind key production techniques and the scientific solutions to current issues impacting the industry. They are aware of the importance of sustainable development goals and the wellbeing of people and animals within agriculture, the consumers, the environment and agricultural business. Graduates are confident in planning, implementing and critically evaluating scientific theory behind management practices and core production principles and can apply these in a range of scenarios. Through industry engagement opportunities they have developed their ability to identify, interpret and critique industry and academic research and understand the role of new and emerging technologies that inform best agricultural practice to support proposed solutions to problems and data driven decision making. They can apply their knowledge and understanding into practice and reflect on how their industry engagement has been pivotal to their personal and career development and progression ensuring that they are industry ready.

BSc (Hons) Agriculture with integrated placement year graduates have undertaken an extended period of industry engagement during their studies. They can identify the diversity of the agricultural industry across local, national and global sectors. They have developed a comprehensive knowledge and understanding of the science behind key production techniques and the scientific solutions to current issues impacting the industry. They can apply their knowledge and understanding into practice and reflect on how their industry engagement has been pivotal to their personal and career development and progression ensuring that they are industry ready. Graduates are confident in planning, implementing and critically evaluating scientific theory behind management practices and core production principles and can apply these in a range of scenarios. Through their studies and industry engagement, they are aware of the importance of sustainable development goals and the wellbeing of people and animals within agriculture, the consumers, the environment and agricultural business. They can identify, interpret and critique industry and academic research and understand the role of new and emerging technologies that inform best agricultural practice to support proposed solutions to problems and data driven decision making.

Part 3: Programme Structure

This structure diagram demonstrates the student journey from enrolment through to graduation for a typical **full time student on the primary programme**, including:

- level and credit requirements
- award requirements that are in addition to those described in the Hartpury University Academic Regulations
- module diet, including core and optional modules.

Please note:

*PAB – these modules are subject to additional and variant regulations as part of an accreditation by a professional accrediting body

+ Non-condonable – these core modules are not able to be condoned

	Core Modules	Optional Modules	Target and Interim Awards
Stage 0	HANV8B-30-3 Academic Skills in Practice HAGVG9-30-3 Foundation Agricultural Studies ⁺ OR HANVFP-30-3 Foundation Animal Studies ⁺ HANV8E-30-3 Foundation Biological Principles HANVG4-15-3 Foundation Skills Development HANV8C-15-3 Reviewing Literature	None	<u>Higher Education Foundation Certificate in Academic Skills</u> <u>Certificate in Academic Skills</u>
	To progress to stage 1 you must achieve at least 90 credits		
Stage 1	HAGV76-30-4 Introduction to Livestock Science ⁺ HAGVPX-30-4 Introduction to Crop Science ⁺ HAGVQD-15-4 Soil and Grassland Management ⁺ HAGVD8-30-4 Skills Development for Agriculture ⁺	None	<u>Undergraduate Certificate in Agricultural Studies</u> <u>Certificate of Higher Education in Agriculture</u>

	HAGVP5-15-4 Introduction to Agricultural Technologies		
	To progress to stage 2 you must achieve at least 90 credits.		
Stage 2	HAGV78-30-5 Farm Business Management and Agricultural Policy ⁺ HANVKV-15-5 Research Methods for Agricultural and Animal Scientists HAGV79-30-5 Agronomy ⁺ HAGVQC-30-5 Livestock Health and Disease ⁺ HAGVR7-15-5 Industry Engagement in Agriculture	None	<u>Diploma of Higher Education in Agriculture</u>
Integrated Placement Year	HANVK6-15-5 Integrated Placement Year		
	To progress to stage 3 you must achieve at least 210 credits.		
Stage 3	HAGVMY-15-6 Agricultural Social Licence and One Health HANVKS-45-6 Animal and Agriculture Dissertation ⁺ Students must achieve at least one from the following two modules: HAGVQN-30-6 Developments in Crop Science ⁺ OR HAGVR4-30-6 Developments in Livestock Science ⁺	HAGVQ4-15-5 Livestock Nutrition HSPV54-15-6 Strategic Management HAGV7F-15-6 Supply Chain Management	<u>BSc Agriculture</u> <u>BSc Agriculture with integrated placement year</u> This must include HANVK6-15-5. <u>BSc (Hons) Agriculture</u> <u>BSc (Hons) Agriculture with integrated placement year</u> This must include HANVK6-15-5.

Part time:

The part time student journey from entry through to graduation is individually negotiated with the student.

Part 3: Programme Structure BSc (Hons) Agriculture (Level 6 entry)

This structure diagram demonstrates the student journey from enrolment through to graduation for a typical **full-time student on the primary programme**, including:

- level and credit requirements
- award requirements that are in addition to those described in the Hartpury University Academic Regulations
- module diet, including core and optional modules.

Please note:

*PAB – these modules are subject to additional and variant regulations as part of an accreditation by a professional accrediting body

+ Non-condonable – these core modules are not able to be condoned

Core Modules	Optional Modules	Target and Interim Awards
HAGVMY-15-6 Agricultural Social Licence and One Health	HSPV54-15-6 Strategic Management	<u>BSc Agriculture</u>
HANVKS-45-6 Animal and Agriculture Dissertation ⁺ OR HANV4Y-15-6 Investigative Skills for the Successful Undergraduate AND HANV3S-30-6 Applied Research Project ⁺	HAGV7F-15-6 Supply Chain Management	<u>BSc (Hons) Agriculture</u>
Students must achieve at least one from the following two modules: HAGVQN-30-6 Developments in Crop Science ⁺ OR HAGVR4-30-6 Developments in Livestock Science ⁺		

Part 4: Programme Learning Outcomes

Modules in bold are core modules and modules not emboldened are optional modules.

A denotes a module that assesses a learning outcome and B denotes a module aligned with a learning outcome.

Learning Outcomes:	Skills Development for Agriculture	Introduction to Crop Science	Introduction to Livestock Science	Soil and Grassland Management	Introduction to Agricultural Technologies	Farm Business Management and Agricultural Policy	Research Methods for Agricultural and Animal Scientists	Agonomy	Livestock Health and Disease	Industry Engagement in Agriculture	Integrated Placement Year	Animal and Agriculture Dissertation	Applied Research Project	Investigative Skills for the Successful Undergraduate	Agricultural Social Licence and One Health	Developments in Crop Science	Developments in Livestock Science	Livestock Nutrition	Supply Chain Management	Strategic Management
A) Knowledge and Understanding of:																				
1. The broad range of techniques, applied sciences, technologies and management theories used within global agriculture to support and monitor sustainable agricultural production.		B	B	B	B	B		A	A				B			A	A		A	B
2. Key employability skills and techniques required to work safely and effectively in the agricultural industry.	A	B	B					B	B	A	B				B					B
3. Available and effective strategies for communicating with people in a range of professional environments as well as responding to challenge.	B					A				A					A					

4. Agricultural science and its application into practice to propose solutions to industry problems with respect to sustainable food production, the environment, animal health and welfare, and farm management.	B	B	B	B		A		A	A				A	B		A	A	B	A	B
5. Scientific principles that inform sustainable resource planning and management of land, livestock, capital, labour, machinery.		B	B			A		B	B									B		A
6. Agricultural policy, legislation and industry standards in relation to management of sustainable agricultural production						A		A	A							A	A		A	B
7. The scientific theories that underpin strategies used to reflect upon personal and agricultural business performance and set targets for future personal and professional development.	A					A					A		B		A					
8. The moral, ethical, welfare and social issues related to a sustainable agricultural industry.	B					A				B			B		A					
B) Intellectual Skills																				
1. Critically evaluate best practices and apply to problem solving within a wide range of agricultural sectors.						A		A	A				A	B		A	A		A	B
2. Identify, analyse and discuss key scientific theories, concepts and principles from a range of disciplines professionally in written, digital and oral communication.	B	B	B			A	B	B	B	B		A	B					B	B	B
3. Use self-reflection to monitor their own progress in theoretical and applied agriculture, especially whilst engaged with industry partners	B									A	A									
4. Critically analyse research and use statistical means to support arguments and to investigate and analyse scientific factors that underpin sustainable agricultural production.						A	A					A	A	A						
5. Critically evaluate the science and strategies used to increase crop and livestock production with respect to animal welfare, sustainable development goals, legislation and policy.		B	B			A		B	B			B	B	B		A	A	A		

6. Demonstrate the ability to apply informed decision-making in complex and unpredictable contexts in a range of agricultural sectors.						A		A											A	
C) Performance and Practice																				
1. Engage with relevant industry partners to undertake industry engagement and scientific research practice in a range of agricultural environments.	A		B						A					A						
2. Demonstrate the key employability, scientific and technological skills required to work safely and effectively in the agricultural industry	A		B			B		B	A											
3. Develop and plan for human behaviour change to promote an enhanced, inclusive people management practice whilst being empathetic to the wellbeing of others						A			A					B						
4. Demonstrate the academic, personal and employability skills developed through study and industry engagements in order to progress through the degree programme with regards to physical and mental wellbeing.	B		B			A		A	A											A
5. Benchmark livestock, crop and farm performance in the context of national and international standards and carry out comparison across businesses or sectors within the agricultural industry.						A		B	B				B	B				B	A	A
6. Develop written, digital and oral communication skills to disseminate scientific information to a wide audience of peers, farmers and industry representatives.	A					A	B	B	B				A	B					A	
7. Identify, present and defend realistic proposals and solutions to industry problems within their chosen industry placement.	B		B								B		A							
8. Demonstrate a commitment to continuing professional development and lifelong learning through the development of initiative, leadership and team skills in relation to self-directed and independent study, developing an adaptable and flexible approach to study and work.	B	B	B			B	B	B	B		B	A	A	A		A	A		A	A

D) Setting, Personal and Enabling Skills																				
1. Communicate effectively through written, digital and verbal means with the wider agricultural industry.						B		B	B			B	A	A					A	
2. Prepare and present data using a range of sources and techniques for peers, enterprise managers and the agricultural industry.				B		A	B	B	B			A				B	B	B	B	B
3. Utilise problem-solving skills in a variety of theoretical and applied situations.						A			B								A		A	A
4. Develop a reflective philosophy when analysing personal effectiveness and considering personal wellbeing, management and development.						B				A					B					
5. Take responsibility for own and others wellbeing, own personal and professional learning and development setting realistic targets to achieve goals and responsibilities with a positive intent.	B								A		A									
6. Manage time effectively in order to prioritise workloads in order to meet targets and objectives.	A	B	B			A		B	B		B					A	B			
7. Possess the ability to work successfully both independently or as part of a team within agronomy, crop and livestock enterprises or within farm management.	B	A	A			A	B	B	B		B					A	A		A	B

Part 5: Learning, Teaching and Assessment

Learning, Teaching and Assessment Journey:

The BSc (Hons) Agriculture programme utilises a mixture of teaching approaches which aim to support the student to develop a comprehensive knowledge and understanding of the scientific principles of agriculture and agricultural production. Learning opportunities are varied with students able to apply theory to practice on the institution's farm, during industry engagement, and through periods of work placement and study exchanges. The teaching and learning strategies employed within modules, aims to develop a scaffolding of practice through the degree to support students to prepare for differing assessment types, industry engagement and research. Through the mix of teaching approaches the students will develop their knowledge and understanding, practical and transferable skills and application aligned to industry requirements. This will include formative feedback on oral presentations, written reports and coursework during individual and group discussions. The aim of the assessment strategy is to assess students in an industry focused manner that provides them with the ability to complete industry relevant tasks upon graduation / employment and will result in graduates who can assimilate complex paradigms and propose justified solutions to problems related to agriculture and be work ready.

The Agriculture programme will have the following distinct unique selling points for each year of delivery:

Stage 0: Delivery focuses on developing a foundation in scientific and academic knowledge alongside a grounding in employability skills.

The Foundation Year will prepare students with general study skills and opportunities to develop subject specific skills and knowledge. Additionally, the Foundation year includes an internship enabling a student to put their skills into practice and develop an early appreciation of employment opportunities and attributes necessary for enhanced employability.

Stage 1: Delivery is focused on building an applied and scientific foundation in agriculture to support students' academic and interpersonal skill development alongside employability competency.

To achieve this, stage one focuses on an experiential approach to learning and concentrates on the development of fundamental knowledge and understanding of the agricultural industry and intellectual skills through lectures, seminars, applied sessions, academic workshops and industry engagement. This enables students to analyse, evaluate and synthesise information and opportunities are provided for students to apply the knowledge they have gained into practice on the institution farm, that consists of a range of mixed enterprises (dairy, sheep, beef, and arable), and through visits to external farms and industry. Access to a skills development bursary will also allow students to undertake and achieve industry recognised competency certificates to support their work readiness.

Stage 2: Delivery aims to consolidate the applied and employability skills developed in the first year of study within industry environments. Students are encouraged to evaluate the impact and constraints of management systems and practices within agronomy and livestock production.

In the second year, students continue to apply their knowledge and understanding through evidence-based learning, application into practice and exposure to best practice through a range of visits to industry and guest speakers. Students will spend time during the year engaging with industry to develop their knowledge, understanding, employability and research skills.

Part 5: Learning, Teaching and Assessment

The concept of behaviour change within the industry will be explored in core management modules and assessment through the students' ability to develop and present strategies for behaviour change in a farm business and the wider industry.

Integrated Placement Year (optional): Students have the opportunity to further develop their employability and can experience different husbandry and production methods used within modern agriculture within either a regional, national or international environment.

Stage 3: Delivery aims to provide students with opportunities to apply research and the skills they have developed into practice facilitating individual specialisation within their chosen career path.

The final year concentrates on the individual development of the student and the expansion of their specialist career path within the agricultural and allied industries. Students will engage with industry relevant research aligned to their individual personal and professional development that will allow them to work and develop effectively. Through this, they will further develop core graduate attributes to support their distinct employability. Taught content will focus on critical evaluation of the science and research behind key developments across the diversity of global agriculture and students will be encouraged to engage in critical review and evidence-based learning, with opportunities to apply this into practice during industry or research focused projects. Optional modules will allow students to direct their study to a particular interest.

This programme will be assessed according to the approved Academic Regulations.

Students registered on this programme will have access to the Hartpury University support services.

The distinctive module used by the Programme Examination Board to inform recommending differential awards for students when considering borderline performance profiles will be:

Animal and Agriculture Dissertation or Applied Research Project

Assessment Map									
		Type of Assessment*							
		Coursework	Report	Portfolio	Written Examination	Written Test	Practical Skills Examination	Practical Skills Assessment	Oral Assessment
Core Modules Stage 0	Foundation Skills Development					A (25) In-Class Test		B (75) Graduate Skills Logbook

* Indicative assessment types for new students enrolling on this programme after the date this specification takes effect (Part 1) are shown in terms of either Coursework , Written Examination , or Practical Examination as indicated by the colour coding above.									

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of individual modules can be found through Hartpury's website (www.hartpury.ac.uk).

Approved Programme Amendment Log

Primary Programme Title:	BSc (Hons) Agriculture (was Applied Agriculture until v3.0)
Programme Code:	BSHCAGXX
Initial Approval Date:	01 September 2017

Changes: *Most recent at the top of the page*

Current version number: 7.0	
Outline Change Details: Part 3: Programme Structure - Stage 2 / Level 5 core modules Research Methods for Agricultural Scientists and Undergraduate Research Process changed from non-condonable to condonable. Part 5: Assessment Map updated to reflect module amendment. Stage 3 optional module Livestock Nutrition changed to A (100) Practical Skills Logbook, and Written Examination removed.	
Do the changes presented alter the mapping against the Hartpury University Curriculum Framework (delete as appropriate)? No If yes, please provide the details of the changes:	
Material Alteration: No	
Rationale: It is now considered that this module can be condoned without altering students' ability to satisfy the programme learning outcomes. Assessment strategy has been reviewed to provide a more balanced variety of assessment types and reduce the overall load for both students and staff.	
Change requested by: Ben Brilot I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report Signature: B Brilot Date: 12/06/23	
Name of Head of Department: Wanda McCormick I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department <div style="text-align: center; margin-top: 10px;">  </div> Signature: Date: 12/06/23	
Approval Committee and Date:	CVC 2023 07 19
Change approved with effect from:	01 September 2023
Resulting new version number:	7.1 (2023 intake onwards)

03/04/2023

Correction of typographical error: award requirements link removed from Level 6 entry programme structure, as previously included in error.

Current version number: 6.0	
Outline Change Details: Part 2: changes made to programme overview to reflect changes in the structure of the programme. Parts 3, 4 and 5: changes to modules - Stage 0: HANVFP-30-3 Foundation Animal Studies added as alternative to HAGVG9-30-3 Foundation Agricultural Studies. Stage 1 HAGV76-30-4 Livestock Science and Husbandry name changed to Introduction to Livestock Science; HAGVPX-30-4 Introduction to Crop Science replaces HAGV75-30-4 Crop Production and Soil Management; HAGVQD-15-4 Soil and Grassland Management and HAGVP5-15-4 Introduction to Agricultural Technologies added; HAGVCS-15-4 Introduction to Agricultural Economics and HAGV77-15-4 Sustainable Agriculture and removed. Stage 2: optional modules removed; HAGV79-30-5 Agronomy changed to	

core; new modules HAGVQC-30-5 Livestock Health and Disease and HAGVR7-15-5 Industry Engagement in Agriculture added; Stage 3:
 new modules HAGVMY-15-6 Agricultural Social Licence and One Health, HAGVQN-30-6 Developments in Crop Science and HAGVR4-30-6 Developments in Livestock Science added; HAGV7D-30-6 Industry Reflection on Agricultural Practice, HAGV7E-15-6 Developments in Crop Production, HAGV7J-15-6 Developments in Livestock Production and HANV3M-15-6 Undergraduate Independent Study removed. HAGVQ4-15-5 Livestock Nutrition added as Stage 3 optional module (not for Level 6 entry route).
 Part 3: Programme Structure – Removal of modules that have been on the programme since 2017 to be replaced by new and amended modules that are included on the other degrees in the provision. Structure includes limited optional modules to streamline the offer and ensure that all modules are viable. Interim awards updated, including removal of stipulated modules for the BSc (non-honours / ordinary degree) on the Level 6 entry course route.
 Part 4: Programme Learning Outcomes amended to include new modules.
 Part 5: Applied Research Project added as distinctive module in addition to dissertation (to accommodate Level 6 entry students).
 Part 5: Amendments made to the teaching and learning section to reflect change in placement modules.
 Part 5: Assessment Map updated to reflect new modules: Introduction to Livestock Science changed from Coursework Portfolio to Test Series, Group Oral Presentation and Practical Assessment Series; Investigative Skills for the Successful Undergraduate Component A changed from In-Class Test to Test.

Do the changes presented alter the mapping against the Hartpury Academic Framework (delete as appropriate)? No

If yes, please provide the details of the changes:

Material Alteration: Yes and is accompanied by the relevant course information document.

Rationale:

The programme has run for several years and there is a need to refresh the modules and the approach to assessment. As the crop and livestock offer now intends to focus more on the scientific principles behind agricultural production the agriculture provision will mirror these changes to allow students a mixed programme. The reduction in optional modules will support a positive student experience through a timetable that reduces large gaps between sessions.

Change requested by: Phil Watson

- / I can confirm that student representatives have been consulted about this change
- / I can confirm that colleagues impacted by this change have been consulted
- / I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report

Signature

Date: 02/12/2022

Name of Head of Department: Wanda McCormick

I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department

Signature:

Date: 13/01/2023

Approval Committee and Date:

CVC Chair's action 2023 03 07

Change approved with effect from:

01 September 2023

Resulting new version number:

7.0 (2023 intake onwards)

22/09/2022: HANV8A-30-3 Foundation Skills Development and HAGV8V-15-3 Foundation Agricultural Studies added as transition modules.

Approved by CSP Chair's action 2022 09 22

22/08/2022: HAGV74-45-4 Skills Development for Agriculture (old 45 credit version) added as transition module to accommodate the 2019 with integrated placement year cohort.

CSP Chair's Action L Dumbell 22 August 2022

Current version number: 5.3

Outline Change Details:

Document amended to meet requirements of new 2022 template.

Parts 3, 4 and 5: HANVKV-15-5 Research Methods for Agricultural and Animal Scientists added as Level 5 core module; HANVKS-45-6 Animal and Agriculture Dissertation added as Level 6 core module.

Parts 1 and 3 – interim awards updated, including addition of new 30 credit Certificate in Academic Skills.

Part 5: assessment for Level 4 core module Skills Development for Agriculture changed from practical skills assessment to coursework portfolio.

Level 6 entry route added including option of two core modules (Applied Research Project and Investigative Skills for the Successful Undergraduate) instead of a 45 credit dissertation and requiring both crop and livestock modules.

Material Alteration: Yes and is accompanied by the relevant course information document.

Rationale:

Programme revised as part of the Refresh 22 process

Change requested by: Philip Watson

- / I can confirm that student representatives have been consulted about this change
- / I can confirm that colleagues impacted by this change have been consulted
- / I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report

Signature:

Date: 02/12/2021

Name of Head of Department: Wanda McCormick

- ☒ I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department; OR;
- ☐ I confirm that this change does require additional resources and have included a completed Resource Impact and Authorisation Form

Signature:

Date: 21/01/2022

Approval Committee and Date:

CVC Chair's Action 2022 04 20

Change approved with effect from:

01 September 2022

Resulting new version number:

6.0 (2020 intake onwards and 2019 IPY)

Current version number: 5.1	
Outline Change Details: Part 6, Assessment strategy. Changed Supply Chain Management (component A) from 100% oral presentation to 100% practical skills assessment. Part 3, credit requirements removed in line with current template.	
Material Alteration: Yes	
Rationale: During the COVID pandemic the oral presentation was replaced with a practical skills assessment. The feedback from the two cohorts of students who have completed the module was positive to the change. They stated that it allowed them to compile an industry style report of worth that replicated tasks that would be expected of an enterprise manager or assistant farm manager.	
Change requested by: Phil Watson I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report	
Signature: 	Date: 02/07/2021
Name of Head of Department: Wanda McCormick I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department	
Signature: 	Date: 12/07/2021
Approval Committee and Date:	CSP 2021 07 05
Change approved with effect from:	01 September 2021
Resulting new version number:	5.3 (2021 intake onwards)

Current version number: 5.0	
Outline Change Details: Parts 3 and 6 updated in line with module amendments: HANVG4-15-3 Foundation Skills Development Module code changed from HANV8A-30-3 to HANVG4-15-3 - reduced to 15 credits. Assessment component A changed from written exam to in class test. HAGVG9-30-3 Foundation Agricultural Studies Module code changed from HAGV8V-15-3 to HAGVG9-30-3 - increased to 30 credits. Assessment component B changed from in class test to written exam. Part 1: UCAS code added for Foundation Year - DF01	
Material Alteration: Yes	
Rationale: Updated to reflect module changes: modules amended in response to students' request for more subject-specific content in the Foundation year second semester.	
Change requested by: Phil Watson I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report	
Signature: 	Date: 01/03/2021
Name of Head of Department: Wanda McCormick I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department	
Signature: 	Date: 4/3/2021
Approval Committee and Date:	CVC Chair's action 2021 04 26
Change approved with effect from:	01 September 2021
Resulting new version number:	5.1 (2021 intake onwards)

Current version number: 4.8	
Outline Change Details: Part 6 Assessment map Amendment to assessment map for the Farm Business Management module (HAGV78-30-5). Component A amended to 40% from 50% and component B amended to 60% from 50%, to reflect the adjustment to the assessment weightings. Undergraduate Research Process changed from A to A/B, to reflect modules changes. Parts 1 and 3: Foundation interim award updated to Higher Education Foundation Certificate in Academic Skills.	
Material Alteration: Yes	
Rationale: The changes proposed to the assessment element (increased timing for component B and reduced time for component A) of the Farm Business Management module will support students to demonstrate their knowledge, understanding and application in management strategies and allow them time to defend their proposals in the presentation. Interim award: after a review of the interim award titles, it was agreed this revised title provided better clarity.	
Change requested by: Philip Watson I can confirm that student representatives have been consulted about this change I can confirm that colleagues impacted by this change have been consulted I have retained evidence of these consultations, which will be summarized within the Programme Enhancement Report 	
Signature:	Date: 09/12/2020
Name of Head of Department: Dr Wanda McCormick I confirm that this change does not require additional resources beyond the scope of those already present or planned for by the department 	
Signature:	Date: 06/01/2021
Approval Committee and Date:	CVC 2021 01 27
Change approved with effect from:	01 September 2021
Resulting new version number:	5.0 (2020 intake onwards)

Current version number: 4.5	
Outline Change Details: Part 6 Assessment – Assessment map amended to show change in assessment for Pig and Poultry production component A from a seen examination to an oral presentation. Parts 3, 4, 5 & 6: Module HANVK6-15-5 name changed from Year Work Placement to Integrated Placement Year, in line with module amendment. Part 3: placement changed from 40 weeks to 24 weeks, in line with module amendment. Part 6: assessment for component A of module HANV8E-30-3 Foundation Biological Principles amended from practical exam to practical skills assessment, in line with module amendment	
Material Alteration: Yes and is accompanied by the relevant programme specifications and course information sheets.	
Rationale: Following student and industry feedback on assessment it is proposed to align the assessment strategy more with industry practice. Therefore, assessing the students in a manner that they will encounter in the industry post-graduation, through the completion of an industry based reflective report and an oral presentation of key findings from research to stakeholders in the pig and poultry sectors of industry. The proposed strategy will further allow the students to apply their knowledge and understanding and critically evaluated information under questioning.	
Change requested by: Philip Watson I can confirm that all programme managers have been consulted and support this change I can confirm that student representatives have been consulted about this change I have retained evidence of this consultation which has been placed in the Module File

Approval Committee and Date:

CVC Chair's action 2020 03 03

Change approved with effect from:

1 September 2020

Resulting new version number:

4.5 (intakes 2020+)

Current version number: 4.0

Outline Change Details: Part 3:

Included the new module (Introduction to Agricultural Economics) in year one of the programme structure and amended the credit value for Skills Development for Agriculture to 30 credits (from 45) and module code changed to HAGVD8-30-4 (from HAGV74-45-4).

Removal of the agricultural technologies module from year two of the programme.

Added a new 15 credit module (Vegetable and Soft Fruit Production) to the second year optional modules.

Removed People Leadership and Change from the final year of the programme.

Programme map updated to improve clarity about optional module choices.

Part 4 Changes made to the matrix to include additional module and those removed

Part 6 – Removal of modules from the assessment map matrix and the inclusion of the new modules

Part 8 – section removed in line with current template

Material Alteration: Yes and is accompanied by the relevant course information sheets.

Rationale: Part 3: Included the new module (Introduction to Agricultural Economics) in year one of the programme structure and amended the credit value for Skills Development for Agriculture to 30 credits (from 45). These changes are included following discussion with current cohorts of students whom felt that the skills module, whilst highly relevant, was too long and often encountered repetition. Discussion with second year students identified the lack of a business module in year one that would prepare students for the farm business management module in year two. Reducing the skills development module to 30 credits will allow for the inclusion of the additional 15 credit module.

Removal of the agricultural technologies module from year two of the programme. Feedback from students on the programme last year and from current second years was that the balance of the optional modules on the straight agriculture was restrictive. This resulted in a choice between agronomy and agricultural technologies which proved unpopular as most students wanted to select both modules. There was additional feedback that the technology content could be contextualised in more depth in the production modules. Added a new 15 credit module (Vegetable and Soft Fruit Production) to the second year optional modules. This reflects the agricultural nature of the local area (Three Counties) and has an international focus as well. This will also sit as an optional module on additional streams of the programme to ensure sustainable numbers enrolling.

Removed People Leadership and Change from the final year of the programme. Rationale is provided by student reluctance to choose the module. Although this reduces the number of optional modules in the final year the student feedback has been that there is sufficient choice on the programme.

Programme map updated to improve clarity about optional module choices.

Change approved with effect from:	1 September 2020
Resulting new version number:	4.3 (intakes 2020+)

Version 4.0

Rationale: After the successful application for University Title, amendments were required to all specifications.

Material Alteration: Yes and Course Information Sheet amended appropriately: Not required

Outline Change Details: 1. Part 1: Basic Data requires the Awarding Body to be amended from Hartpury College to Hartpury University. 2. Award Titles amended to replace (SW) with (IP) 4. Subject Benchmark Statements updated where required.

Change requested by:	Academic Registrar
CVC approval date:	31 August 2018
Change approved with effect from:	01 September 2018
New version number:	4.0

Version 3.0

Rationale: The UCAS Course Search mechanism was altered leading up to 2018, and this meant that if a prospective applicant typed in 'Agriculture' the Applied Agriculture title was not returned. An amendment was therefore required and following consultation a simpler title of Agriculture was chosen.

Material Alteration: Yes and Course Information Sheet amended appropriately: Yes

Outline Change Details: Programme title changed from BSc (Hons) Applied Agriculture to BSc (Hons) Agriculture

Change requested by:	Phillip Watson
CVC approval date:	01 August 2018
Change approved with effect from:	01 September 2018
New version number:	3.0

Version 2.0

Rationale: Addition of Foundation Year as an entry point into this programme and therefore this has been reflected in the appropriate sections.

Material Alteration: Yes and Course Information Sheet amended appropriately: Yes	
Outline Change Details: To increase access and widening participation opportunities for this programme.
