Part 3: Learning, Teaching and Assessment	
Description of Learning and Teaching	<p>This module will be delivered using a variety of formats, including lectures and seminars. Lectures will provide students with theoretical underpinning knowledge, which they will be able to apply during seminars. The students will have the opportunity to work in small groups, allowing them to benefit from peer learning and peer support, whilst developing problem solving skills as well as their intellectual and communication skills.</p> <p>Students will be expected to engage with independent learning and complete a range of guided learning activities throughout the course of the module. This independent learning may form the basis for seminar discussions, during which students will be able to gain valuable formative feedback on their interpretation and analysis of information from peers and tutors. This independent and guided learning will involve activities designed to support students with the preparation of their assessment and develop further in-depth subject knowledge. The virtual learning environment (VLE) will be used to identify relevant resources and learning activities to students for completion as part of the module.</p>
Resource Strategy	<p>Essential reading Essential material will be indicated to the student via pre-course material, module guides and through their accessing a dedicated VLE presence. No requirement for the purchase of set text(s) will be made unless explicitly stated and students will have full access to library services, online applications, and inter-library loans.</p> <p>Further reading Students are expected to identify all other reading relevant to their chosen topic for themselves. They will be required to read widely using the library catalogue, a variety of bibliographic and full text databases, and Internet resources. Many resources can be accessed remotely. The purpose of this further reading is to ensure students are familiar with current research, classic works and material specific to their interests from the academic literature and wider professional sources.</p> <p>Access and skills Formal opportunities for students to develop their library and information skills are provided within the induction period and student skills sessions. Additional support is available through online resources. This includes interactive tutorials on finding books and journals, evaluation information and referencing. Sign up workshops are also offered.</p>

Assessment Strategy	<p>This module will be assessed according to the approved Hartpury Academic Regulations including any specific regulations detailed within the student's programme specification.</p> <p>The coursework has been chosen to facilitate in-depth utilisation of the full breadth of information covered throughout the module, as well as via additional study. This will include information on welfare needs, behaviour and legislation in addition to the problems and solutions in animal housing using real-life scenarios.</p> <p>Formative feedback can be gained from this module in the module delivery, on Moodle, in tutorials and in revision sessions. Formative feedback will be given via quizzes and directed study tasks in order to assess understanding of lecture content and knowledge retention.</p> <p>A student may apply for alternative means of assessment if appropriate. Each application will be considered on an individual basis taking into account learning and assessment needs. For further information regarding this please refer to the VLE.</p>

Module Amendment Log

Module Title:	Principles of Animal Welfare and Behaviour (was Animal Behaviour and Welfare until version 3.0)
Module Code:	HANV83-15-4
Initial Approval Date:	01 September 2017

Approved Module Changes (most recent at the top):

Current version number: 3.0	
Outline Change Details: Teaching hours reduced from 45 to 36, independent study hours increased from 105 to 114	
Material Alteration: Yes and is accompanied by the relevant programme specifications and/or course marketing information.	
Rationale: In line with current institutional approach, which has removed the requirement for all level 3 and level 4 learners to be timetabled for at least 15 hours a week on average across teaching weeks, scheduled learning and independent study hours have been amended to improve the effectiveness of student timetables, encourage student engagement and ensure consistency of experience across the curriculum.	
Module description for Course Marketing Purposes: Gain an understanding of key concepts in the fields of animal behaviour and animal welfare.	
Change requested by: Ben Brilot <ul style="list-style-type: none"> I can confirm that all programme managers have been consulted and support this change I can confirm that student representatives have been consulted about this change I have retained evidence of this consultation which has been placed in the Module File
