

BSc (Hons)

Sports Therapy

Graduate as a qualified sports therapist using our dedicated sports therapy clinic, working with the general population and athletes with support from industry experienced staff. The course is accredited by the Society of Sports Therapists, so you can be confident you'll graduate ready for your career.

You'll undertake a minimum of 200 placement hours during the course, giving you the skills and experience that employers are looking for. You'll benefit from contextualised teaching and learning, so you understand the realities of day-to-day practice. Focus on practical and professional skills, as well as the wider academic knowledge and theory underpinning the practice.

Key Information

Course Duration: 3 or 4 years full time

UCAS Code: C612

Part or Full Time: Full Time

Level of Study: Undergraduate Degrees

Placement Year: Optional

Typical Offer: 112 UCAS tariff points or equivalent

Course information

Overview

Learn from a team who are also practising industry professionals, as you gain the skills and knowledge you need. You'll also work closely with sports therapists, strength and

conditioning experts, sports scientists, and physiotherapists, learning how to work in a multidisciplinary team.

The knowledge you gain in sports medicine and sports science, will mean you can accurately provide examination, assessment, injury management and rehabilitation in sporting and non-sporting settings.

Our performance sport campus is the perfect place to learn. Put your skills into practice delivering pitch-side first aid or working as part of our sports injury clinic.

Accreditation

This course is accredited by the Society of Sports Therapists (SST). This means that, on graduation you'll be eligible to join the SST as a graduate to apply for membership and professional liability insurance.

Entry requirements

- **UCAS tariff points** | 112 UCAS tariff points, to include Biology, Sport or PE.
- **A Levels** | BBC or equivalent from at least two full A Levels. This must include Biology, Sport or PE at grade D or above.
- **Vocational Awards** | DMM in an Extended Diploma in a relevant subject.
- **Access** | 112 UCAS tariff points in an Access to Higher Education Diploma. This must include nine level 3 credits at Merit or above in Biology.
- **International Baccalaureate** | 112 UCAS tariff points in an IB Diploma, from at least two Highers at H4 or above. This must include Biology, Sport or PE.
- **Scottish Highers** | 112 UCAS tariff points from at least two Highers, to include Biology, Sport or PE at C or above. You must have completed two years study at Higher Level.
- **Irish Leaving Certificate** | 112 UCAS tariff points from at least two Highers, to include Biology, Sport or PE at H3 or above.

- **T Level** | An overall grade of Distinction, to include grade B or above in the Core component in a Science subject. T Level subjects considered are Animal Care and Management (Science Pathway), Healthcare Science and Science. Health will be considered on an individual basis.

Additional Information

We also ask that you successfully complete our Fitness to Practise process.

In addition to the above, we require a minimum of five GCSEs at grade 9-4 (A*-C), to include English and Maths. We will consider equivalencies including but not limited to functional skills level 2, Irish Ordinary level, National 5s, IB standard level.

We will consider combinations of level three qualifications.

We welcome applications from individuals with equivalent, non-UK qualifications and mature students (over 21). We may interview as part of the application process.

The minimum academic entry requirement for this programme is 80 UCAS tariff points, providing this is combined with relevant experience.

Employability

Your career

Industry opportunities on this course are diverse to ensure you develop the skills, experience and connections needed for your graduate career. Many of our students secure graduate roles with their work placement employers.

Work placements and experience

In year one and two, you'll have the chance to complete a number of on-campus opportunities, ranging from pitchside immediate management, to student-led clinics and other event opportunities.

Your final year will consist of hours both on campus and through external, pre-approved, work placement opportunities. These hours will be logged as part of assessment elements for specific modules.

Students have previously been able to source opportunities with Cheltenham Football Club, Gloucester Football Club, Bath RFC, and in the Hartpury Medical Hub. Please note, all placements and opportunities are unpaid, and have to be approved prior to commencing.

You could also choose to do an optional integrated placement year to gain further industry experience.

Guest lecturers and continued professional development

As part of the programme, and to assist your professional development, you'll undertake an emergency first aid certificate. This is in order to allow you to carry out the applied opportunities in your first year, including pitchside first aid hours. The one day course provides students with standardised training for the environment of basic life support.

Industry professionals and guest lecturers may form part of your learning, enabling you to gain different experiences and context of sports therapy.

Continued Professional Development is a key part of Sports Therapy. Although not compulsory, Hartpury University may host various extra-curricular activities and courses. Prices will vary depending on the nature and duration of the course, as well as the external provider.

Graduate destinations

As a graduate sports therapist, you may progress into a variety of industries and sports therapy roles. You could go on to work as a sports therapist in many settings, including for clubs or teams, in private practices, or the fitness and health industry. Roles within the NHS and Ministry of Defence are also a possibility, as is further postgraduate study.

You'll also gain the transferable skills you need for other graduate careers. Our careers team can support you to find, and prepare you for, employment.

Recent graduate destinations have included:

- Sports Therapist, Hartpury Academy
- Sports Therapist, Tamworth Football Club
- Sports Therapy Internship, Dragons Rugby
- Self-employed Sports Therapist
- Roles in the NHS and Ministry of Defence

How you'll study

Your support network

You'll benefit from a strong support network from day one to be the best you can be. This will range from your personal tutor and specialist academic support team (our Achievement and Success Centre) to dedicated wellbeing and employability (Innovation, Careers and Enterprise) centres.

Attendance requirements

You are expected to actively engage and attend all scheduled sessions and modules. As a pre-requisite to meet the professional body requirements, a minimum attendance requirement is stipulated. Attendance will be monitored in all sessions across modules. Failure to meet the attendance requirements may result in a student being unable to sit the assessment for a module at the first attempt due to the health and safety associated with the content of the module.

Prior to re-assessment, you'll be expected to attend scheduled support sessions to fulfil the practical health and safety elements for eligibility for the re-sit opportunity. You must be available on the dates scheduled.

Academic support

You'll have your own personal tutor while you're here who will support you to succeed in your studies. You'll also have access to our academic and wellbeing support teams who run regular workshops and one-to-one sessions on campus and online.

Alongside this, we have a comprehensive bank of online study skills resources to help you make the most of your qualification.

Your learning experiences

You'll experience a range of teaching methods to strengthen your digestion of topics, including lectures, workshops and practical sessions, as well as supported work placement learning as part of many courses.

Your career

Each year of your course will be made up of two semesters, within which you'll study compulsory and optional modules on different industry-focused topics, enabling you to develop your own unique portfolio of knowledge, skills and experience, ready for your career. The course is taught in English.

Modules

Overview

What you'll study

This course covers a broad range of sports medicine and science topics through core modules, from anatomy, biomechanics, and exercise physiology to sports therapy, rehabilitation, and strength and conditioning.

Module credits

On successful completion of your modules you'll gain academic credit that accumulates towards your award. The marks you gain in your second and final years may contribute towards your final degree classification.

Level four (year one)

This year will focus on fundamental topics and help you gain the foundation skills and knowledge you need to study at a higher level. You'll cover topics including anatomy, sports therapy skills, the principles of strength and conditioning, as well as wider sports science topics. Alongside your studies, you'll also complete a minimum number of hours of applied practical opportunities.

Compulsory Modules

Functional Anatomy and Biomechanics for Sports Therapists

Cover the foundations of anatomy and biomechanical principles required by sports therapists.

Fundamental Skills for Sports Therapists

Learn the basic skills required by a sports therapist including first aid and immediate injury management, soft tissue skills and examination and assessment of injury. Undertake a minimum number of applied opportunity hours.

Introduction to Exercise Physiology

Study the structure and function of the different biological systems, and how they are used during exercise.

Principles of Strength and Conditioning for Sports Therapy

The purpose of this module is to introduce students to basic principles of athletic development and how to further athletic performance through the utilisation of strength and conditioning.

The Sport and Exercise Professional

Work with students from other sports science courses to gain research skills. Determine professional needs in preparation for a career in sport and exercise.

Level five (year two)

Build on what you learnt in the previous year and explore more advanced applied skills and knowledge at this level. In addition to undertaking a minimum number of hours of applied practical opportunities, you'll cover topics in greater detail, giving you more complex skills and understanding. Modules include further examination and assessment, rehabilitation, sports science and manual therapy topics.

Compulsory Modules

Applied Skills for Sports Therapists

Develop more advanced assessment techniques, and a better understanding of different injuries and treatment modalities. Includes a minimum number of applied opportunity hours.

Joint Mobilisations

Cover key treatment modality of manual therapy, and joint mobilisations, as well as subsequent treatment options.

Sports Rehabilitation

Learn how to use exercise prescription in the rehabilitation of sporting injuries.

Sports Nutrition

Understand the key nutritional requirements for exercise, including athlete metabolism.

The Sport and Exercise Scientist

Understand how multidisciplinary teams work together in sport and exercise. An introduction to research methods and analysis required for future projects.

Placement year (optional)

An optional integrated placement year between your second and final years gives you the opportunity to put your skills and knowledge into practice and gain valuable industry experience through an approved placement provider.

Level Six (final year)

In your final year, you'll consolidate your knowledge and practical skills ready to graduate as a qualified sports therapist. You'll complete a dissertation, a substantial research project that enables you to experience being responsible for planning, implementing and reporting on a specialist topic.

Gain further practical skills with wider clinical and practical sports therapy experience, as well as studying sports conditioning and return to play topics. You'll also be required to complete a minimum number of external work placement hours.

Compulsory Modules

Sport Research and Knowledge Exchange Project

Independent research and analysis in a related area of your choice.

Professional Practice in Sports Therapy

Gain the skills required by the Society of Sports Therapists through professional placement learning.

High Performing Teams

Evaluate the leadership and management of sport science support within the performance environment.

Sports Conditioning and Return-to-Play

Understand the return-to-play considerations through studying the relationships between doctors, sports therapists, and strength and conditioning coaches.

Complete Injury Management

Study the different components related to the complete injury management of an athlete.

Screening and Prevention

This module covers physical screening protocols and injury-prevention methods.

Teaching modes

The modules contain a mixture of scheduled learning – lectures, workshops and practical sessions – alongside independent learning. You're expected to dedicate at least two to three hours of independent study per contact hour. Your course may also include work placement learning as part of some modules, which may require additional hours of study.

Year	Contact learning	Placement learning	Independent learning
Level four (year one)	26%	2%	72%
Level five (year two)	24%	3%	73%
Placement year (optional)	1%	80%	19%
Level six (final year)	15%	11%	74%

Assessment and Feedback

You'll be assessed through a mixture of written exams, practical exams and written assignments. Many of the modules will be marked based on a mixture of assessment types, whilst others will be based solely on one type of assessment. Feedback will be given via a mixture of written bullet point-style feedback and/or oral feedback.

Year	Written exam	Practical exam	Coursework
Level four (year one)	16%	74%	10%
Level five (year two)	5%	50%	45%
Placement year (optional)	0%	0%	100%
Level six (final year)	13%	26%	61%

Timetables

Each year of this course is taught over two semesters, normally consisting of 12 weeks of scheduled teaching and then assessment weeks, with an overview below:

- Scheduled teaching takes place between 8.30am to 8.30pm Monday to Friday
- Wednesday afternoons are normally reserved for sports and cultural activities
- Work placements may entail different days and hours
- Part-time students may need to attend learning activities five days each week, depending on modules selected
- Timetables are available during enrolment week

Fees and funding

Please visit our [student finance page](#) for information on tuition fees and student loans, as well as non-repayable grants, bursaries and scholarships, eligible to different groups, to support with study costs.

Below, you'll find extra costs associated with studying this course.

Clothing and footwear (circa £150)

You'll need to purchase appropriate clothing and footwear before you enrol, or during enrolment week. We'll let you know exactly what you need to purchase in your enrolment guide.

Additional costs

In the final year of the degree, students are expected to source an external placement that meets the accredited criteria. This may have additional travel costs.

Hartpury University may host various extra-curricular activities and courses, prices may vary dependent on the nature and duration of the course and external provider, but these are not compulsory.

Work placements can require a Disclosure and Barring Service (DBS) check, paid for by the student or placement provider.

The programme offers an optional study abroad programme that will incur additional costs for the student.

Further course details

Our [Resource Library](#) is where you'll find all the essential details about Hartpury University's courses. It includes *Programme* and *Module Specifications*, along with *Course Information Sheets* for every course. You can easily download a complete revision history for each of these, clearly showing the dates changes were made.

Course Information Sheets: These are PDF versions of the course webpages. They provide an overview of the course, what to expect during your studies, and the topics covered.

Programme Specifications: These are detailed, validated documents containing academic specifics for each programme. They include descriptions of the programme, its aims, learning outcomes, year and module structure, as well as teaching, learning, and assessment strategies.

Module Specifications: Each Programme consists of several Modules. Our Module Specifications outline the topics covered and the expected outcomes for students studying each Module.

Meet our academic team

Get to know our dedicated and passionate teaching staff who'll help you achieve your very best. We're proud to have been awarded Gold in all three areas of the Teaching Excellence Framework (TEF): Overall, Student Experience, and Student Outcomes. This places Hartpury University in the top 15% of published institutions in England. Plus, we're ranked sixth in the UK for Teaching Quality, in The Times and Sunday Times Good University Guide 2025.

Important information

Every effort has been made to ensure the accuracy of our published course information, however our programmes are reviewed and developed regularly. Changes or cancellation of courses may be necessary to ensure alignment with emerging employment areas, to comply with accrediting body requirements, revisions to subject benchmark statements or as a result of student feedback. We reserve the right to make necessary changes and will notify all offer-holders of changes as and when they occur.
